

Better Forever

Well I was feeling down
It was a sad, sad day
The air was cold
And the sky was gray
I needed to hear
A happier tune
The last one had gone
Much too soon

Lift up your voices
In unison
This is what I said
I'll say it again

If you could sing me a song
I'd be happy
If you could sing me a song
I think I'd love you

There's a girl I know
With long blonde hair
And big green eyes
And I really care about her
But she decided to go
And I was oh, so sad
But I want you to know

My friends raised their voices
In unison
This is what they sang
I'll say it again

We hope you feel better
So much better
We hope you feel better
Better forever
We hope you feel better
And we hope you have a real good time

My friends raised their voices
In unison
This is what they sang
I'll say it again

We hope you feel better
So much better
We hope you feel better
Better forever
We hope you feel better
And we hope you have a real good time

Well there's a break in the clouds
And it's shining my way
The girl that I love
She says she's gonna stay

Oh, so happy
And you know it's my way
Rain to shine
Tear to smile
And there goes the gray
