ONLY AVIABLE FOR LATE MODEL SHORT BEDS (5.5 & 6.5 SIZES)

Why LEER Latitude™?

The LEER-exclusive CYNC™ Latch allows you to easily open the cover with the pinch of two fingers and from either side of the truck bed

Rounded corners and double stitching give Latitude™ reinforced strength and a custom fit; corners will not fold up

Beveled edges allow Latitude™ to shed water easily, while cushioned seals and fabric extensions around the perimeter provide a tight and secure fit

Traveling with the cover open is easy with security straps located at the front of the bed

A backup emergency anchor ensures Latitude™ will stay on your truck, even in the worst driving conditions
