

THE PROPHETIC 10TH RED HEIFER

POSSIBLE TIMEFRAME OF THE COMING 3RD TEMPLE DEDICATION

The purpose this illustration to consider the window of time both the birthing of the certified Red Heifer and the dedicated Altar of Sacrifice have in terms of effectively ushering in the next 3rd Temple 'event' that will either let to a proclamation that the 3rd Temple is to be built or will be. It is rather telling that on the very year of Israel's anniversary of being 'reborn' as a nation in 1948, that both the Red Heifer is procured, certified and the Altar of Sacrifice is rededicated. What is left but to consider prophetically that the case might next by that the 'confirming the Covenant' with the 'Many' maybe the next stepping-stone to come perhaps. If this proves to be true, then what also will be spectacular to realize is that perhaps this is to mean that the 3rd Temple has got to be built or start to be built soon within this prophetic window of 1-4 year timeframe. It would be in sync with the dedication of the Altar of Sacrifice and the completion of the Temple Institute's work of preparation for the Daily Sacrifices and the reconstitution of the Sanhedrin, etc. It was reported in Israeli news that about 1 week after several births in late August of 2018 Red Heifers that a newborn Red Heifer was certified by a board of Rabbis or those associated with the Sanhedrin as 'fulfilling all the Biblical requirements'.

The Red Heifer is important to the religious Jews because its ashes are needed to cleanse the Temple and its instruments and above all else, purify all of Israel for its redemption so they can be found 'worthy' of receiving - then their Jewish Messiah. Now it is not known if and when a Red Heifer was procured and then either slaughtered before or after the work was all completed. This required purification would have made Jerusalem, the Temple Mount, the Altar, the Daily Sacrifices and the 2nd Temple holy once again. It is rather telling that the Bible notes that only after the Altar of Sacrifice was dedication that precisely 1 year from the dedication of the Altar of Sacrifice was when the Temple work started. It is also amazing that that the last dedication of the Altar of Sacrifice, made by Zerubbabel after the return to Jerusalem was done shortly after the 70th year of the Babylonian Captivity.

Historically, before the Jewish Exiles entering the land of Israel after the Exodus, it is said that a Red Heifer was burned 'outside of the Camp' to consecrate the Tabernacle in the Promised Land. A Red Heifer was then used for Solomon's Temple or the 1st Temple. Then when the Jewish Exiles entered the land of Israel after their Babylonian Captivity, they sacrificed the 8th Red Heifer since Moses, etc.

In the days of Herod's Temple, the 9th Red Heifer was taken to the Mount of Olives across a causeway built specifically for this purpose to ensure no inadvertent contact with areas along the way was made that may have been contaminated by dead bodies.

This is how the Jews will 'sanctify' their Messiah with the 10th and last Red Heifer. This 'last' sacrifices of a Red Heifer will be so that this coming Jewish Messiah will be able to ride through the planted Muslim cemetery of their dead and through the double-doors of the Golden Gate. Currently this is a problem of uncleanness just outside the Golden Gate where Muslims have placed their dead to defile the coming Jewish Messiah. Also, there still remains the problem pertaining to where specifically the 10th and last Red Heifer is to be burned. Nonetheless, what is amazing and prophetic is that now Israel has procured a Red Heifer, a calf born in the Fall of 2018. This perhaps is paving the way for re-establishing the Temple ordinances of the Daily Sacrifices and marking the final stage of redemption for Israel. If the birth of the Red Heifer is of any prophetic significance, it is perhaps going to herald the coming of false Jewish Messiah. Then consider that there is a certain window of time that this current designated Red Heifer is to be sacrificed. This is the same principle that the Altar of Sacrifice has. This Altar that is essentially an appendage of the 3rd Temple, as it was also amazingly dedicated in the winter of 2018. This too occurred exactly on the 70th year of Israel's other amazing prophetic restoration, it 'rebirth' in 1948. The Jews were allowed to return to Judah as YHWH prescribed only the 70 years for not keeping the 'Sabbath of the Land'. The Royal Decree by Cyrus gave the Jews the authority to rebuild the Jerusalem, its walls and most importantly, the Temple. According to Scripture, there was a delay in having the Exiles return right at the 70th year when King Cyrus made the decree. It is believed that there was a 2-year gap of time, making it essentially a 72-year time. This 2-year window is something to keep an eye on as it is also believed that the Red Heifer has to be sacrificed between its 3rd and 4th year. The first work of restoration that the Jewish prepared after their Exile was to rededicate the Altar of Sacrifice.
