THE RAPE OF AMERICA

By the Federal Reserve and Wall Street Banksters

The Youth

They have taken the brightest and strongest for their Banker Wars abroad and false wars of terror and drug in America. They have defiled the youth at home with their imported drugs, sex, immorality and rebellion. The latest generation is less educated, more on medication, addicted, sicker and going through gender identity crises.

The Middle Class

The Banksters have deliberately and systematically destroyed the once vibrant Middle Class that was the bedrock of moral and just institutions. Through thievery and usury, the Banksters have transferred the Middle Class wealth through debt and banker fraudulent schemes as they get away with it and in turn receive millions in bonuses for doing so.

The Innocence

They have legalized the murder of nearly 70 million unborn and sell their body parts at a profit. Their tissue and by-products are used for consumer goods and research. They also exploit innocence with their global sex trade of minors to satiate their immoral appetite for pedophilia.

The Lower Class

Nearly 1/3 of the total USA population is under some type of federal assistance program. The aim is to have all the population dependent on the government of sustenance and/or benefits with conditions that will foment unconditional support of any government policy and/or agendas such as forced vaccination, relocation, gun confiscation, political allegiance, etc.

Black America

The Banksters funded the African slave trade to the Americas for fee labor as they do White slavery. They currently are fomenting the divide and conquer tactic to cause racial hatred and destabilize the society to peg one race, one class against the other. This racial divide could be one of the flashpoints that will lead to a Martial Law scenario.

The Immigrant

The Banksters control the immigration policy that encourages illegal immigration to delude the homogeneous population for one. They use the ploy of divide and conquer to exhaust resources. They exploit their cheap labor and foment resentment, bigotry and discord to diminish the majority rule.

The Bankster

They have monopolized all power, media, government (Judicial, Legislative and Executive), education, the military and economy in America. They have usurped absolute power to divide and conquer the Christian heritage of the nation by promoting decadence, debauchery and perversion. They have raped America of its resources, human and natural based on their greed and evil quest to enslave all the nations of Humanity.

White America

The Banksters have virtually declared war on White America, in particular against white males. More so this assault is on the Evangelical Christian identity that stands for the Biblical definition of marriage, justice and morality. They seek to peg the races against each other as a distraction from their agenda to totally subvert the national psyche of the nation and the social mores to control and dominate every aspect of one's life.
