- Bull Mortality Insurance: Patrice Mushitz, Agent; Bank West, Geddes, SD 605-337-3333

Welcome to our “New and Improved” 2018 Bull Sale

New: Video Action

Improved: Home Sale Barn

We’ve renovated the home sale barn on the ranch 2 miles west of Geddes, SD. Walk through our yards and view the bulls on display. Then come in our heated sale barn, enjoy a beef sandwich, and sit back and enjoy the auction on three large screens where you can make a great selection for your herd.

We have a great set of bulls to show you and with the Hereford and Angus genetics, we can produce the quality of beef that is in demand now more than ever. With today’s cattle market, now is the time to use the best genetics you can find to improve your profit potential. The bulls are fed a diet with high roughage ensuring soundness and longevity.

We will be happy to take the time to show you any of the bulls before the sale. Just give either one of us a call. Thank you for your past patronage, and remember, we don’t forget you once you load your bull out!

Hope to see you Friday, February 23, at 1 p.m. at the ranch, 37195 285th street, which is 2 miles west of Geddes, SD.

Mark and Dennis Gant
(605) 680-1540 or (605) 680-1542

Cattle Evaluation Terms

EPD’s Expected Progeny Difference: Estimate of a bull or cow’s future progeny performance compared to progeny of a breed average sire or dam.

BW: Birth Weight
WW: Weaning Weight
YW: Yearling Weight
M&G: Milk and Growth
CEM: Calving Ease Maternal
SC: Scrotal Circumference
FAT: Backfat

REA: Rib Eye Area
IMF: Intramuscular Fat or Marbling
CHB: Selected and Weighted traits of an animal that reflect the animal’s feedlot and carcass profit potential.
BMI: Baldie Maternal Index
CEZ: Calving Ease Index
CHB: Certified Herford Beef Index

Individual Performance

BW: actual weight at birth

BWR: ratio compared to other calves birth weight in same herd

WWR: ratio compared to other calves 205 day weight in same herd.

Calving Ease:

There is more to calving ease than birth weight. Birth weight, shape of calf at birth, pelvic area, size of cow and nutrition during gestation can all effect calving ease. BW and MCE should both be considered when selecting bulls. Continued selection for just light BW can lead to low growth rates.

Bulls have the greatest economic impact on any breeding program. 80% of the improvement in a herd over time is attributed to bull selection.

There’s no mama like a Hereford-sired mama. Net income of \$51 more per cow per year and a 7% advantage in conception rate, compared to straight Angus females.* All this from a bull that is known for its fertility and easy-going nature. Hereford bulls — better mamas and no headaches.

Hereford — gentle bulls making black better.

THE BALD-FACED TRUTH

ABOUT HEREFORD GENETICS

It's obvious – Hereford-sired calves deliver a \$51 increase in net profit per cow, per year.* Hereford genetics bring legendary hybrid vigor, improved fertility, feed efficiency and easy-handling docility to your program. Read the research, and see why Hereford heterosis pays off, at Hereford.org/genetics

He wants it all.

Matching cattle to environments and maximizing hybrid vigor isn't new to commercial cow-calf producers. Diversified beef operations are making the most of available technology and, now, genomic information to reap all the benefits of crossbreeding without compromising end product merit.

The stakes have never been higher to create **value** and **efficiency** throughout the production system. In the past decade, Hereford has documented dramatic improvements in calving ease, weaning and yearling performance and end product merit.*

Reduce your risk. Improve your opportunity for profitability.

**You want it all
 in your beef operation?
 Then take it.**

**HEREFORDS. Accountable.
 Predictable. Profitable. Sustainable.**

* The Spring 2015 Hereford Pan-American Cattle Evaluation (PACE) documents consistent improvements in all traits of economic importance. From 2004 to 2014, AHA Genetic Trends indicate a 14% reduction in birth weights, 20% improvement in weaning and yearling performance and a 30% improvement in end product merit. Hereford.org/userfiles/S15_Trend.pdf

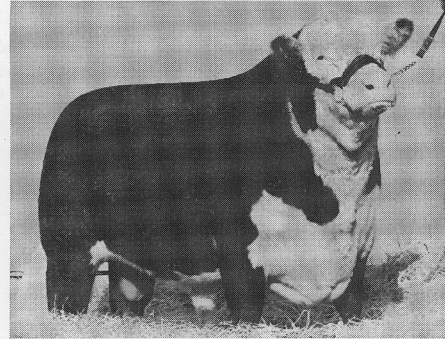

This is a picture of Maureen Gant and one of her Purple Ribbon 4-H Heifers. Mike and Maureen have shown 11 Heifers of our breeding; 10 of them have won purple ribbons in the county and went on to the State Fair where 6 of them received purple ribbons.
