

This Month's Lifelong Learning Classes:
Historic Preservation in Modern America

In Modern America, historic preservation has evolved from a grassroots effort to save historic sites to a focus on prioritizing sustainable development, economic revitalization, and the preservation of diverse cultural stories.

Telling America's Story-Historic Structures

From the mounds to the monuments, America's story has always been about building—lifting our hopes into lasting forms that outlive us and inspire those who come after.

The Influence of Hobbies

Let's take a journey through time, exploring the origins of hobbies and how they have evolved to remain a part of the human spirit. Who were the first hobbyists?

The Village Voice

November 2025

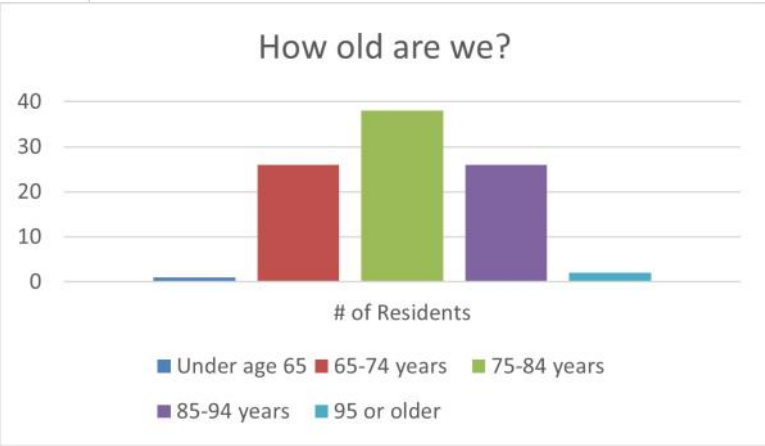

Message From the President

One of our newer residents asked about the demographics of Village Green. Did you know... As of the end of October, our total resident count stands at 98, 31% men and 69% women. There are 15 married couples, 15 solo men, and 53 solo women.

How long have we lived here? The vast majority, a total of 73, arrived in the last five years. Just six have lived here more than ten years. Laura Forester in Unit 326 holds the record for residency at nearly 15 years!

How old are we? The average age is between 80 and 81. The age distribution forms an almost perfect bell curve. Alma Sidlin in Unit 354 is proud to be our oldest resident. Next August, she'll celebrate her 100th Birthday!

Please join me in celebrating November as National Gratitude Month. I have an awful lot to be grateful for: dedicated staff who clean, maintain, and do repairs; those who cook and serve meals; those who organize activities and staff the front desk; and our manager, who guides our business operations. And then there are the volunteer board members who give time and talent to oversee our association; the volunteer gardeners who lovingly care for our raised beds; the volunteer decorators who dress our common area for the holidays; and thoughtful neighbors who support each other in ways big and small.

Research shows that people who practice gratitude every day are not only happier but also healthier. What are you grateful for?

Cheers, Roxane
