'The Probability is only 2,25 % for an Annular Solar Eclipse in the Hand of Virgo in 6000 Years. It is because the Probability of an Annular Solar Eclipse is the following.'

$1/730 \times 1/365 = 0.000002739726$  in a given Year in 6000 Years  
(Probability in 6000 Years) = 2.25 %

'So it is even confirming that it is very unlikely!!! In other words: An annular Solar Eclipse in the Hand of Virgo occurs every **26,645,350 Years**'
