

PAPERBOARD SOLUTIONS

CorrShield

Made with patented Corruven® technology.

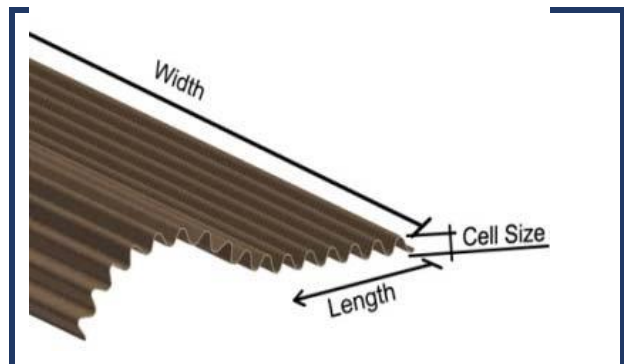

CorrShield is a high performance industrial packaging material that offers exceptional strength and high water resistance. CorrShield is a veneer based composite that combines wood's high tensile strength, a corrugated shape, and green chemistry.

CorrShield features:

- High Strength and Impact Resistance
- Resistant to water
- Export Ready ISPM 15 and CARB2 Exempt
- Weighs less than comparable wood products

CorrShield Applications:

- Corner Posts
- Reel Protection
- Spacers
- Crates

Thicknesses and Sizes:

CorrShield 1904 & 1910

Up to 60" wide and 144" long

Custom Sizes available upon Request

.75" high cell height

Width runs parallel to the fluting

Length runs perpendicular to the fluting
