

Roots of Change Foundation FUNDACCO Scholarship Fund

FUNDACCO SCHOLARSHIP FUND

This fund supports deserving Nicaraguan students who wish to pursue post-secondary education. It is designed to help students who have no access to employment or financial assistance.

A full scholarship covering tuition, books, transportation and accommodation is only \$1800 per year. We ask that donors make a commitment of four years to assure students that they will be supported for the duration of their program.

Partial scholarships are also available where donors may give lesser amounts with a four year commitment.

All donations will receive a charitable donation receipt.

Why was the scholarship fund initiated?

In some of the poorer Nicaraguan communities there is very little or no opportunity for employment. There are many young adults who have nothing to do, have no financial resources and no chance of getting out of the cycle of poverty.

Education – A way out of poverty

Make a gift that never stops giving

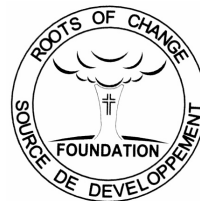

We are now able to accept endowments through cash, wills, insurance policies, and estate donations to make ensure that the funding for the scholarship fund continues well into the future.

A gift now can help students in perpetuity. We can leave some of our legacy to those who really need our help. A small percent of your will would go a long way.

When making a donation, please indicate if you wish to sponsor a student now or if you wish to make a contribution toward the FUNDACCO Scholarship Endowment Fund, which will support future students in perpetuity.
