

NIVENEH ORION DRAGON STAR GATE

The purpose of this illustration is to consider the astronomical correlations of the entire ancient city of Nineveh. This study presents the assertion that the entire ancient city perimeter and its 7 gates was fashioned after the pattern of Orion. This ancient city is what is now called Mosul in modern-day Iraq. It is situated on the Tigris River to the north of Baghdad and has a rich history of one of the fiercest empires the world has ever known, the Assyrians. In ancient times, this capitol was founded by those that are considered the 'Cradle of Civilization' after the Flood of Noah. The original capitol of Nineveh was founded in approximately 3000 BC. The kings were considered to have been part of the bloodline of the Anunnaki. The Anunnaki were those that supposedly came from such star constellations of Orion and the Pleiades. These were the 'gods' that came down from 'heaven' and seeded such bloodlines as they interbred with the human race. This is corroborated in the account of Genesis 6.
