### FAREWELL, 'TIL WE MEET AGAIN...

Our dear friend Joann Cellers passed away peacefully at home last night. Joann served for 18 years with City of Phoenix Police Department as a volunteer, Phoenix Neighborhood Patrol, Block Watch Captain and loving supporter of her men and women in blue. You will be deeply missed and we love ya! Confident you'll continue keeping watch over us. ❤️🚓❤️

## IT IS BACK TO SCHOOL TIME!

It is back to school time. When school starts, Community Action Officers receive multiple complaints from citizens regarding the traffic issues around schools, to include speeding and parking violations. In addition, there are calls from concerned parents about vehicles passing school busses. Let's discuss some of the common issues, so we can all have a safe school year.

Over the last several years, there has been an increase in students being dropped off by their parents, rather than walking or taking the bus. As a result, many of the schools (especially charter schools) have adopted a pick up and drop off procedure.

Did you know, that these schools, work with various City of Phoenix Departments, including Streets and the Police Department to come up with a safe and strategic traffic plan? They do traffic studies, pedestrian studies, and make observations of the area to determine how to keep our children safe and reduce the number of accidents as well.

Most schools have a designated drop-off and pick-up area. These are designed to control the flow of traffic and offer a safe place for children to exit vehicles, to get to school. Parents and children alike should follow these regulations for their safety. Please do not have your child meet you down the street from the school because you are in a hurry and don't like waiting in the line. Some parents like to stop across the street to drop their children off, when in reality, this causes more of a hazard. Children must cross the street and navigate the traffic, often when there is not a crossing guard present.

In fact, **ARS 28-901B** says: In receiving or discharging children at a school, a person who drives a vehicle carrying children to and from school shall stop the vehicle on the side of the highway on which the school is located.

Often times the traffic congestion makes it difficult for people to move about in their own neighborhood. In some areas, it has become such an issue that the City, as well as neighborhoods, have opted to put up traffic signs such as NO PARKING, and even NO STOPPING or STANDING during certain hours. Even if a car stops in some of those areas, briefly, to pick up a child, they may get a parking ticket! Again these regulations are in place to keep our children and citizens safe.

Let's not forget when school is in session, we must obey the school zone speed limits and other school signs. If someone is caught speeding in a school zone, a ticket comes with hefty fines, not to mention points on your driving record. Please pay attention to flashing school signs, as well as the portable ones, as they are valid traffic signals.

**Under ARS 28-701.02A1**, if a motorist exceeds 35 miles per hour in a school zone, the violation becomes a misdemeanor offense rather than a civil traffic violation. To report any concerns you have about speeding, please contact the speeding hotline at **602-534-SPEED**. Also, keep in mind that many schools have crossing guards as well that hold a stop sign. Motorists must stop for them when they are assisting children across the street.

Lastly, we all need to look out for the school busses. When a school bus stops to pick up children, it is unlawful to pass them, when the lights are flashing, AND the stop sign is out according to **ARS 28-857A1**. This goes for the traffic driving in the opposite direction as well, unless there is a physical median present. (Vegetation, concrete or raised median, for example.) Again, a ticket for this offense is quite pricey!

The bottom line is, our children are our future. We all should take the time to slow down, and pay attention to what is around us, so that our children can safely get to school, and the adults can avoid paying fines. Have a fun and safe school year!

### Tis the Season Heatstroke and Hot Asphalt Beware!

**DOG TREAD**

Press the body of your hand firmly against the asphalt. If it's possible to walk on it, it will be comfortable for your dog.

Press this dog!

When the air temperature is this high, the asphalt has been measured at this\*

Air Temperature	Asphalt Temperature
77° - 125°	
86° - 135°	
87° - 143°	

\* These temperature correlations represent worst scenario variables: direct sun, 0 wind, very low humidity and high radiant energy.

At 125°F, skin destruction can occur in 60 seconds.

An egg can fry in 5 minutes at 131°F.

In 85-degree heat a car can heat to 102 degrees in 5 minutes and 120 degrees in 30 minutes.

### SUMMER PET SAFETY TIPS

Beat the heat and keep your pet safe this summer

- SUN PROTECTION**  
Don't forget the sunscreen! Have your dog wear clothing. Deep tanning of his fur, combined with light-colored fur, can heat his body to a dangerous level.
- SHADY**  
Prevent overheating with breaks out of the sun. Shady areas, like under a tree or in a garage, are perfect.
- TIME TO BE COOL!**
- HOT CAR**  
Even with windows cracked, the interior of a car can heat up to 140 degrees in 10 minutes!
- SIGNS OF HEATSTROKE**  
Look for these signs: excessive panting, vomiting, drooling, staggering, stumbling, or loss of consciousness. If you see these signs, call your vet immediately.
- STAY HYDRATED**  
Remember to water your dog more often than usual. Always add water to their food. Encourage your pet to drink water.
- HOT PUP PAWS**  
Dog bodies can reach 104°F without symptoms. If you notice your dog's paws are too hot to touch, call your vet. Avoid hot surfaces such as pavement, concrete, metal, and asphalt.
- COOLER HOURS**  
Exercise your dog in the morning or evening. The intense heat of midday can overheat your dog.

### HOW LONG BEFORE YOUR CAR IS HOT ENOUGH TO KILL?

IF YOU LOVE THEM, LEAVE THEM AT HOME.

Just 10 minutes can be enough for a pet's body temperature to climb from a normal 100.5 to a deadly level that will damage the normal and cardiovascular systems, often leaving the animal comatose, debilitated and at risk of permanent impairment or death.

STARTING INSIDE CAR TEMPERATURE	5 min	10 min	30 min	60 min
120°	127°	133°	149°	167°
115°	122°	128°	144°	162°
110°	117°	123°	139°	157°
105°	112°	118°	134°	152°
100°	107°	113°	129°	147°
95°	102°	108°	124°	142°
90°	97°	103°	119°	137°

## CITYWIDE PHOENIX NEIGHBORHOOD PATROL

Detective Brian Kornegay

### Reporting your PNP hours (Logs)

Please double check you have all your hours entered. Don't worry that they are late, they still count. Please try to have this done in the next couple weeks. Thanks!

On Line Reporting for PNP at [volunteer@phoenix.gov](mailto:volunteer@phoenix.gov)

**Mileage Reimbursement (2019 rate has increased to \$.58 per mile)**

PNP members who have a NBW Grant in their neighborhood that has funds for PNP patrol fuel reimbursement, please record miles and reimbursement documents online. The log sheet has been updated for this. PNP members recording their time for fuel reimbursement this way must enter the beginning and ending odometer readings and license plate number of the vehicle used on their logs.

When you are ready to do a reimbursement simply email [Brian.kornegay@phoenix.gov](mailto:Brian.kornegay@phoenix.gov) the PNP members name and the time frame you are requesting to reimburse and he will email back a report. This report will be signed as becomes your "receipt" for the grant quarterly report. The report double checks the math and calculates the reimbursement total.

If this methods work well it will likely be the required method for the grants awarded in July 2018.

### PVSA Participants logging hours

In the past PNP members who also participate in the Presidential Service Award (PVSA) program had to do separate entries for PNP and PVSA. This was a duplication of effort. We have an updated combination log for PNP and PVSA. Detailed instructions went out to the PNP members who are also in PVSA.

## **VOTE IN THE AUGUST SPECIAL ELECTION**

On Tuesday, August 27, Phoenix residents will vote in a Special Election for two propositions related to light rail and city pensions. Voting is open to all voters in the city of Phoenix, who register by Monday, July 29. Please remember that early ballots will be mailed out and early voting will start on Wednesday, July 31, 2019. The last day to request an early ballot by mail is Friday, August 16. In-person early voting will be available weekdays from Wednesday, July 29 until Friday, August 23, 8 a.m. to 5 p.m., on the 15th Floor of Phoenix City Hall. In-person voting is available with valid ID at any of the voting centers during the following dates and times: Saturday, August 24: 10 a.m. – 4 p.m. Monday, August 26: 9 a.m. – 6 p.m. Tuesday, August 27: 6 a.m. – 7 p.m. Voting devices that allow voters with disabilities to vote independently will be available at all voting locations. A map and list of voting centers may be found in the sample ballot and publicity pamphlet, mailed in July, or by using the online voting center locator. Visit [Phoenix.gov/Elections](http://Phoenix.gov/Elections), call 602-261- 8683 (VOTE) or use the 7-1-1 Relay System.

## **CRISIS RESPONSE NETWORK**

Crisis Response Network acquired the 2-1-1 Arizona program in 2017, since that time we have been working to restore funding cuts made during the recession in order to enhance services to the people of Arizona. Unfortunately, due to lack of funding by the State of Arizona and reductions in financial support from major funders, 2-1-1 Arizona will not be able to expand services at this time. While 2-1-1 Arizona will continue operations and to provide crucial information and referral services to Arizona residents, significant changes will be made to how services are delivered. Beginning, Friday, July 12, live answer will no longer be an option. Instead, Arizona residents will be served through an automated process when they call or via the program's website or mobile app. In 2018, 2-1-1 Arizona provided 950,000 service referrals. More than 80% of these referrals were to private, as opposed to public, organizations in the state. The 2-1-1 program directly links individuals and families to community nonprofit and faith-based services. The top 10 need requests included housing and shelter, utilities, food, healthcare, government and legal, clothing and household, mental health and addictions, employment and income, transportation assistance and childcare and parenting.

## **HOW TO DONATE TO HELP THE HOMELESS**

Some of the most common calls our office receives are related to issues with our homeless and transient population. Homeless and transient issues are experienced across the country and they are growing. Phoenix is not alone in its struggle to find effective ways to address the concerns of all of our residents and that includes those who need the most assistance in finding housing, or other services. Often, people ask how to help in ways that get less fortunate people the help they need. Handing out money seems like a quick method to help, but it doesn't contribute to long term, or effective solutions. We suggest that if you want to help, consider donating to charities such as: – St. Joseph The Worker – UMOM New Day Centers – Central Arizona Shelter Services – The Phoenix Rescue Mission – St. Mary's Food Bank or any other of the many organizations that can provide housing, or other services. For information about these services, please visit the Homeless Shelter Directory at: <https://www.homelessshelterdirectory.org/cgi-bin/id/city.cgi?city=Phoenix&state=AZ>

Councilwoman Deb Stark, Vice Mayor Waring along with Black Mountain Community Alliance visited Black Mountain Precinct Patrol Officers during their briefing. We wanted them to know how much support there is in the community in spite of the things that are being said on the media by a select few individuals.

Vice Mayor Waring told them we are well aware they are human and are never going to be perfect. We expect excellence not perfection. Our Phoenix Police Department is the best and excels better than any other department anywhere!

Thank you to Councilwoman Stark, Vice Mayor Waring and Gerry Wiebers for the financial donations to BMCA helping to make it possible for provide Sausage Egg Burritos to the 5am briefings and Italian Meatball Sandwiches for the afternoon and evening shifts.

Other precincts were delivered ice cream and donuts, but we want to be sure the safety vests fit and fed our Officers protein instead of carbs. It was absolutely the most amazing feeling to see the expressions of the officers who were overwhelmed with the visits.

Thank you also to Monte and Candice Fremouw, Jena Ingram, Tom Argiro, Linda Santana, Gerry Wiebers and Russell & Lisa Hixson. BIG THANK YOU and SHOUT OUT to Assistant Chief Charley, her sister Ahleeya and their Chauffeur / Community Relations Coordinator MOM Karen!

# CRIME TIPS:

## CAST A CRITICAL EYE ON UNSOLICITED CHARITY ROBOCALLS

The phone rings, and an automated voice makes the pitch. Perhaps it's a message asking you to donate to a veterans' charity, or maybe it's one asking for you to make a critical donation to breast cancer research. And while our charitable instincts may urge us to act, it's important that we cast a critical eye on these unsolicited charity robocalls before donating to make sure they are legitimate.

### HOW IT WORKS:

- Scammers use the same techniques as trusted charities to reach you — and this includes robocalls.
- The name of the fake charity may closely resemble the name of a real charity.
- The fake charity might ask you to wire money or send cash — see this as a red flag.

### WHAT YOU SHOULD KNOW:

- Real charities need your support, and they, like your own bottom line, lose out when a scammer intervenes.
- Scammers will put pressure on you to act quickly, before you have a chance to think through your decision or do any research.

### WHAT YOU SHOULD DO:

- Research charities before making a donation. It's easy to do — check out charities at [www.give.org](http://www.give.org) or [www.charitynavigator.org](http://www.charitynavigator.org) before donating. You can also reach out to your state government (find out which office at [www.nasconet.org](http://www.nasconet.org)) to see if the charity is registered to solicit in your state.
- Consider making an annual giving plan at the start of the year for all of the charities you will support. You can simply explain to any organization not on your list that you have made your commitments for the year.

## MEDICARE FRAUDSTERS EXPLOIT OLDER AMERICANS' HEALTH CARE CONCERNS TO ENRICH THEMSELVES

Medicare spends more than \$6 billion a year on durable medical equipment (DME) — wheelchairs, walkers, braces and other devices prescribed by doctors to help patients deal with an injury or chronic illness at home. This is a big help to beneficiaries but also a big draw for fraudsters, who exploit older Americans' health care concerns to enrich themselves.

And a big business it is. In April 2019, federal authorities charged 24 people with operating a complex scheme to market back, knee, wrist and shoulder braces to hundreds of thousands of elderly and disabled Medicare recipients. This scam alone cost the government more than \$1.2 billion. These and other losses related to DME fraud are borne by the taxpayers who fund Medicare and by beneficiaries shouldering higher premiums and out-of-pocket costs.

### HOW IT WORKS:

- You receive an unsolicited offer for a free medical device as a Medicare "benefit."
- Using hard-sell tactics, unscrupulous equipment suppliers lure you into giving them your Medicare ID.

- They stick Medicare with the bill for costly devices that are not medically necessary, not properly prescribed or not delivered to patients at all. In other cases, a beneficiary's Medicare number is compromised and used to bill Medicare for unneeded services or services never received.

### WHAT YOU SHOULD KNOW:

- Medicare only covers durable medical equipment ordered by a doctor's prescription. Consider it a big red flag if you are approached by someone other than your doctor with an offer for free supplies from Medicare.

### WHAT YOU SHOULD DO:

- Carefully review your Medicare Summary Notice or insurance Explanation of Benefits for questionable charges.
- Report questionable charges or sales pitches to Medicare at 1-800-MEDICARE. If you have private insurance, report suspected fraud to your insurance company's anti-fraud department.
- If you have been targeted by this scam or have fallen victim, call the AARP Fraud Watch Network Helpline at 1-877-908-3360 for guidance and support.

When it comes to fraud, vigilance is our number one weapon. You have the power to protect yourself and your loved ones from scams. Please share this alert with friends and family and visit the [Fraud Watch Network](#) for more information.

## WHEN YOU CALL 911 - KNOW THE 10 W'S

*"Call if you can. Text if you can't." was the key message rolled out during a press conference on April 2nd as text to 9-1-1 service capability becomes available for the first time in the greater Phoenix region. If you are in imminent danger and unable to talk to a 9-1-1 operator, you now have the ability to text to 9-1-1. The service goes live following months of collaboration between numerous public agencies and advocates for the disability community.*

- **What** - is your location? GIVE EXACT LOCATION
- **What** - happened? WHAT TYPE OF CRIME?
- **When** - did this happen?

These questions will determine if it is a priority call. Give as much of this necessary information as you can.

- **Was** - anyone hurt?
- **Weapons** - are there weapons involved?
- **What** - manner did they leave or arrive — foot, vehicle, bicycle...?
- **Who** - did it? —Suspect description
- **Where** - did the suspect go? — What direction
- **What** - did the suspect obtain? — type and amount
- **Who** - is calling? — Give your name location and phone number (You can remain anonymous. If you do give your name, the info is redacted from the public record access.)

## From the Desk of Bill Montgomery-

The Maricopa County Attorney's Office is working hard for you. Our prosecutors have been collaborating with law enforcement and crime analysts to share information and develop best practices to improve public safety by identifying and prosecuting crime drivers in the community and strengthening community outreach. We're also busy assessing and improving programs to offer diversion to offenders and give them the tools they need to avoid return to the criminal justice system.

Our efforts are being recognized as well, with three of our programs winning awards from the National Association of Counties (NACo).

Our annual 'Don't Leave Me Behind' Vehicular Heatstroke campaign is well underway. We, along with our partners, the Governor's Office of Highway Safety, the Arizona Humane Society and Phoenix Children's Hospital, urge you to help us to spread the word that 'Not One More' child or pet should die in a hot car.

Wherever your summer plans take you, make sure you take precautions to secure your home before leaving on vacation and be aware of your surroundings as you travel to avoid becoming a victim of crimes of opportunity.

Have a great summer!

*Bill Montgomery*

Bill Montgomery, Maricopa County Attorney

## CHECK ENFORCEMENT PROGRAM

Each day, thousands of checks are written to pay for goods or services - yet hundreds are not honored when presented at the bank. Hard working merchants and others go unpaid.

**If you or your business is the victim of a bad check, the Maricopa County Attorney's Office may be able to help you get the money you are owed.**

Our Check Enforcement Program has a mission to pursue bad check writers and make them pay up - even if it means taking them to court. The program is largely funded by fees paid by bad check writers, making this a completely FREE service to victims and merchants.

### If You Receive a Bad Check

Send a Demand for Payment letter to the bad check writer; **Form A** if the amount is less than \$5,000 and **Form B** if the amount is \$5,000 or more. If you do not receive payment within the specified time frame, fill out a **Victim Information Form (PDF)** (first time victims only), attach the bad check to a completed **Submittal/Witness Form (PDF)**, and mail or deliver these materials to our office:

MCAO Check Enforcement Program  
11 W. Jefferson Street, 2<sup>nd</sup> Floor  
Phoenix, AZ 85003  
Phone: 602-372-7300  
Fax: 602-372-0014

If there is sufficient evidence to prove that a crime was committed, we will take action against the bad check writer which could result in a criminal court summons and/or a warrant for arrest. **Penalties for issuing a bad check include up to 6 months in jail and a \$2,500 fine, plus full restitution.**

For more information, download our [Check Enforcement Guidebook \(PDF\)](#) or check out our list of frequently asked questions. You can also contact us directly at 602-372-7300 or [via email](#).

### Merchants

Check out our [CHECK List to Protect Yourself Against Bad Check Writers](#) and let bad check writers know you mean business by downloading and displaying our [warning sign \(PDF\)](#):

## THIS SUMMER, LET'S WORK TOGETHER FOR 'NOT ONE MORE' HOT CAR DEATH

It is officially summer and you can feel it, which means whether you are new to the Valley, visiting, or just need a helpful reminder... it is far too hot to leave a child or pet in a parked car. A vehicle's interior can heat up 20 degrees in just ten minutes in our heat, and even when the outside temperature is in the 60's, a parked vehicle can heat up above 110 degrees. Children and pets are particularly vulnerable to heatstroke in hot cars because their body temperature can rise faster than a human adult. "It is never okay to leave a child or pet in a parked car this summer. Whether you are a parent, guardian, caregiver, uncle, aunt, neighbor or friend helping out, if you have a child in the backseat you have precious cargo. You must remember they are there and remember your responsibility," said Maricopa County Attorney Bill Montgomery.

The Maricopa County Attorney's Office is partnering with the Arizona Humane Society, Phoenix Children's Hospital and the Governor's Office of Highway Safety for its annual "Don't Leave Me Behind" Vehicular Heatstroke Campaign. This partnership will work to help spread this important awareness message from now until August 31<sup>st</sup> through freeway billboards, digital ads, radio commercials and social media. In 2018, this summer campaign saw amazing success with ZERO deaths in Maricopa County from children or pets being left in a hot vehicle. This year, tragically, a young life was already lost prior to the launch of the campaign. However, we are working to ensure that NOT ONE MORE life is lost this summer in our community.

"Last year was the deadliest year nationwide with 52 children dying of heatstroke after being left in a vehicle in 2018. Luckily, Phoenix was not one of those locations and there were no deaths here last year. However, we have already had one this year so clearly there is a need out there for us all to be aware and it is so simple. This is 100% preventable, but you have to be aware that there is a possibility of it occurring. You cannot let down your guard or believe that it can't happen to you," said Dr. Anthony Pickett, Phoenix

Children's Hospital emergency department physician. Having a strategy to remember there is a child in the backseat especially when you are outside your normal routine is the best way to prevent tragedy. You can leave your phone in the backseat or if you have a car with keyless entry leave your key fob in the back, and the car will alert you if you try to lock the door and walk away. When it comes to pets, sometimes leaving them at home is the better option.

"During the Summer, the Arizona Humane Society's Emergency Animal Medical Technicians can respond to about 40 calls a day and up to half of those can be heat related. It is important to keep pets inside as much as you can and never leave them in parked vehicles which is like a hot oven than can turn deadly to an animal locked inside," warned Tracey Miiller, Arizona Humane Society Field Operations Manager.

Serving as a tool for responders is the "Good Samaritan" law, put into place just last year, providing civil protections to those who may need to help a child or pet in distress. The Governor recently signed HB2671 into law, enhancing our animal cruelty statutes to provide greater penalties for intentional acts of animal cruelty.

### If You See A Child or Pet In A Hot Vehicle:

Arizona law protects a person's use of reasonable force to remove a child or a household pet from a locked and unattended vehicle if the person does ALL of the following:

- Has a good faith belief there is an imminent danger of death or physical injury
- Check if the vehicle is locked and found no other reasonable way to get the child or pet out
- Call 911 BEFORE entering the vehicle
- Use no more force than necessary
- Remain at the scene until authorities arrive

As per Arizona law (ARS § 12-558.02) A person is not immune from civil liability if the person fails to abide by any of the provisions

above and commits any unnecessary or malicious damage to the motor vehicle.

### Warning Signs of Heatstroke in Children:

- Red, hot, and moist or dry skin
- No sweating
- Strong rapid pulse or slow weak pulse
- Throbbing headache
- Dizziness
- Unconsciousness
- Nausea
- Confusion
- Irritable or strange behavior

### Warning Signs of Heatstroke in Pets:

- Red gums and tongue
- Rapid panting & pulse
- Excessive/lack of drool
- Excessive thirst
- Vomiting/diarrhea
- Glazed eyes
- Weakness/collapse
- Seizures
- Unconsciousness
- Confusion
- Irritable or strange behavior

### Safety Tips:

- Never leave a child or pet alone in a parked car – even with the windows rolled down or air conditioning on.
- Always check the back of the vehicle before locking the door and walking away.
- Never let children play in an unattended vehicle.
- Always lock your vehicle doors and trunk and keep the keys out of a child's reach. If a child is missing, quickly check all vehicles, including the trunk.
- If dropping a child off is not part of your normal routine, take steps to remind yourself that the child is in the car:
  - Place something you need to take with you in the back seat next to the car seat so that you'll check the back seat before you leave.
  - Set a reminder on your cell phone or calendar.
  - Instruct your daycare provider to call you if your child does not show up.
- If a child or pet is in distress due to heat, get them out of the heat as quickly as possible. Cool them rapidly by spraying them with cool, not cold, water. Never use an ice bath!

### Facts:

- 2018 was the deadliest year on record in the U.S. for children left in hot cars.
- Since 1998, more than 800 children have died nationwide as a result of vehicular heatstroke.
  - 54% were forgotten in the vehicle.
  - 27% gained access by themselves and became trapped.
  - 18% were left intentionally.
  - 1% were unknown cases.
- High body temperatures can cause permanent injury or death.
  - Heatstroke begins when the core body temperature reaches about 104 degrees and a child's major organs begin to shut down.
  - Heatstroke becomes fatal at a core body temperature of 107 degrees.

Heatstroke fatalities have occurred even in vehicles parked in shaded areas and when the air temperature was 80 degrees or less.

## MONSOON PREPAREDNESS

Each year, a variety of weather related dangers affect Arizona, New Mexico and southwest Texas, especially from late spring into early autumn. Through a collaborative effort between National Weather Service offices serving the states of Arizona and New Mexico, which includes offices located in Tucson, Phoenix, Flagstaff, Las Vegas, Albuquerque, El Paso/Santa Teresa and Midland/Odessa, the time period from June 15th through September 30th has been defined as "The Monsoon."

A period of extreme heat is typically ongoing at its onset, which in the coming days or weeks is followed by an influx of moisture leading to daily rounds of thunderstorms. The heat is deadly in its own right, causing dozens of deaths in Arizona each year. In addition, thunderstorms present an array of hazards which often strike suddenly and with violent force. In Arizona and New Mexico, lightning strikes, high winds, wildfires, tornadoes, flash flooding and extreme heat have caused an average of 10 deaths and 60 injuries along with tens of millions of dollars of damage each year since 1995. Road closures, as well as power and communication outages are additional consequences of monsoon weather hazards such as:

- Flash Floods
- Downburst Winds
- Lightning
- Thunderstorms and Dust Storms
- Extreme Heat
- Wildfires

### WHAT TO DO WHEN A STORM APPROACHES

#### If indoors:

1. Secure outdoor objects such as lawn furniture that could blow away or cause damage or injury.
2. Shutter windows securely and brace outside doors.
3. In the event of a power outage, listen to a battery-operated radio or television for the latest storm information. If you have access to cable, Channel 11 may post warnings and other storm-related information as well.
4. Telephone lines and metal pipes can conduct electricity. Unplug appliances not necessary for obtaining weather information. Avoid using the telephone or any electrical appliances. Use phones only in emergency.
5. Do not take a bath or shower during a storm. Do not go swimming during a storm.
6. Turn off air conditioners. Power surges from lightning can overload the compressors.

#### If outdoors:

1. Find shelter in a building or car. Do not take shelter in small sheds or under isolated trees.
2. If you're unable to find shelter, go to a low-lying, open place away from trees, poles or metal objects and crouch with hands on knees. Do not lie flat on the ground.
3. Stay out of pools and away from water.
4. Get to higher ground if flash flooding or flooding is possible. Once flooding begins, abandon cars and climb to higher ground. Do not attempt to drive to safety. Most flash flood deaths occur in automobiles.

#### If in a car:

1. Pull safely onto the shoulder of the road away from any trees that could fall on the vehicle.
2. Stay in the car and turn on the emergency flashers until the heavy rains subside.
3. Obey all traffic warning signs and avoid flooded roadways.

## MVD RECOMMENDS ID CARDS FOR KIDS

*Valuable tool in case of emergency*

Children and infants obviously aren't going to get behind the wheel of a vehicle to drive anywhere, but they can still get an ID card from Arizona Department of Transportation Motor Vehicle Division.

"Arizona ID cards have no age restriction," said MVD Stakeholder Relations Manager Jennifer Bowser-Richards. "Parents should consider an ID card for children, even infants, because it's an added layer of protection in case of an emergency or law enforcement situation. They can also be a tool to help prevent identity theft and are useful for anyone traveling outside the U.S."

ID cards cost \$12 and are available at all MVD offices and those Authorized Third Party providers that provide license and ID card services. Customers need to bring in the child's Social Security number and one primary form of documentation such as a Birth Certificate, Permanent Resident Card, Tribal Certificate of Indian Blood, among others, as well as proof of Arizona residency. A full list of acceptable documents can be found at [azdot.gov/childid](http://azdot.gov/childid).

Bowser-Richards added, "This is an important service for every parent or guardian to consider for a child's safety, and if you get an ID card, be sure to periodically get it updated as the child changes and grows."

## REPORT LITTER ON STATE HIGHWAYS WITH A SIMPLE CALL: DIAL 511

Arizona Traveler Information line now takes litter reports  
PHOENIX — Reporting drivers who toss trash out of their vehicles isn't literally as easy as 1-2-3, but ADOT has made it nearly as simple by allowing drivers to quickly make a report by dialing another simple number: 511.

That's the number to ADOT's recently enhanced Arizona Traveler Information line, which now features an option to report litterbugs on state highways. Once drivers call 511, they can select the second option for the litter hotline. Callers are then asked to provide a license plate number, type of litter, location and time of day.

ADOT uses the information to send a letter to the vehicle's registered owner to remind the person that littering

is illegal and can result in a \$500 fine when witnessed by law enforcement.

ADOT's letter includes a small litterbag to place inside the car for future use and a "Thank you" for helping us Keep Arizona Grand, ADOT's litter program motto. ADOT issued more than 1,300 of those letters in the past year.

The letter also informs drivers of the high price of litter, as it costs more than \$4 million a year to remove trash from Arizona highways. Plus, roadside trash leaves residents and visitors with a poor impression of Arizona.

The 511 option for reporting litter is one of several ways ADOT allows drivers to report drivers who litter as part of the Adopt A Highway program. The existing Litter Hotline takes reports online at [Litter.AZ.gov](http://Litter.AZ.gov) or at 877-3LITTER (877) 354-8837.

Learn more about the litter hotline at [LitterAZ.gov](http://LitterAZ.gov), or Adopt a Highway at [azdot.gov/AdoptaHighway](http://azdot.gov/AdoptaHighway).

## CHARITABLE CAUSES SEE RECORD PROCEEDS FROM SPECIALTY PLATE SALES

*\$11.2 million raised in FY 2019*

Specialty license plates each have a unique look, but one thing they all have in common is the ability to raise a record amount of money for Arizona charitable causes.

In Fiscal Year 2019, which concluded June 30, a total of just over \$11.2 million were raised for endeavors ranging from support of Arizona veterans programs, Special Olympics, organ donation, hunger relief, university scholarships and many other causes.

Monies raised have steadily grown for a number of years. In FY 2015, the total was just over \$8.7 million, increasing to nearly \$9.4 million in FY 2016. FY 2017 saw more than \$9.8 million raised followed by \$10.6 million in FY 2018.

"The specialty plate program is a real point of pride for Arizona and is a tremendous success," said Arizona Department of Transportation Motor Vehicle Division Director Eric Jorgensen.

"Raising more than \$11 million in the last Fiscal Year proves Arizonans are both generous and eager to support great causes and organizations they believe in."

Customers who wish to select a plate can go to [servicearizona.com](http://servicearizona.com) and once a selection is made may click on a link for more information that outlines which cause is supported by the sale of a particular plate.

Specialty plates are created by an act of the Arizona legislature and the program, which began in 1989, is administered by the MVD.

## **BLIGHT AND ZONING LAWS**

**STRUCTURES:** The maintenance of a home is the responsibility of the property owner. Any wood, siding, shingles, roof covering, railings, fences, walls, ceilings, porches, doors, windows, screens and other exterior parts of any structure on the property must be maintained in weather tight, sound condition and in good repair. The property owner is responsible for making sure there are no doors or windows left open and not secure to the outside. *FOR HELP call the Preservation Division of the Neighborhood Services Dept. at 602-495-0700 to see if you qualify for a free Grant!*

**OUTDOOR STORAGE:** All outside storage that can be seen from the street should be inside sheds or cabinets. Items should not be set in car ports in view of the street. Please use enclosed areas or backyards.

**JUNK, TRASH & DEBRIS:** Junk, trash and debris cannot be left in the yard or car port and must be properly disposed of. This includes junk auto parts, appliances, furniture, building and/or landscaping material, trash such as discarded papers, cardboard, plastics, etc. including tree trimmings and fallen limbs or any other items that appear to have been discarded. The only exception is during the Bulk Trash Collection weeks four times a year.

**PARKING:** Parking is only permitted for passenger cars and motorcycles on residential streets, on driveways or in garages. A driveway or parking area must be constructed with an approved dust free parking surface. The stone must be 1/4 -3/4 in size with a permanent border holding it in. 1/4 minus size stone is not allowed for parking. There are limits to the amount of front yard area that can be used for parking. Only 35% of the front yard may be converted to driveway or dust free parking.

**GRASS AND WEEDS:** Grass and weeds must not be allowed to grow over 6 inches high due to fire hazard, allowing the weeds to go to seed and spreading throughout the neighborhood and insect infestation.

**ELIMINATE GRAFFITI:** Keeping the neighborhood graffiti free is something we can all do. If there is graffiti on your property, please remove it as soon as possible. The Graffiti Busters Program provides paint, supplies and training to assist groups with eliminating graffiti. The City will also remove the graffiti from private property with written permission from the property owner. Call 602-495-7014.

## BLIGHT BUSTER VOLUNTEERS

Good morning my favorite volunteer group!!!

Long time no speak, well we had a few things going on that was holding us up, office renovation at city hall, of course the beautiful brutal summer and my CAP program that keeps me super busy and taking up most of my time. I wanted to get everyone together **for a quarterly meeting coming up on Tuesday, August 6<sup>th</sup> from 6pm-8pm at NSD West located at 3325 W Flower St.**

I'd like to say this is mandatory for the following reasons...

- **We haven't met in a few months and are way past overdue for a meeting!**
- **We have some pretty big changes coming and need to go over those with everyone**
- **Finally we have 50 registered BBVs and I need to see who is still with us and interested in the program.**

As you know I am very lenient with the volunteers when it comes to volunteer activity and responsibilities, but that is something we are going to discuss and try to work on because I feel like we are not getting any participation to zero participation from many BBVs. Now please don't take that personally as I know this is VOLUNTEERING and not WORKING, but I feel like we all need to sit back and reflect that at one point we all were interested in making our community a better place, so when those opportunities arise we need to step in and act. So we are going to discuss that and I have a plan in order I would like to share and get your thoughts, so we will be doing a lot of brainstorming. Please do your best to make this meeting, I hear quite often from many of you, "shoot this day doesn't work because it's our monthly such and such meeting. Well I challenge you for just one time to come and relay that message to your other group. I am ready to get serious as we are entering a new fiscal year and want to get this program back to where it was, but I need your help! **Look forward to seeing you all there, Tuesday, August 6<sup>th</sup>.**

**Please feel free to bring a friend as we also have an upcoming recruitment on Tuesday, August 27<sup>th</sup> (recruitment flyer attached).** And I'd like to let them get a head start and see what we are all about. Please do your part as part of the team and help me recruit some people for the program, believe me we may have been quiet, but it's been the summer and we are VERY BUSY... I am always needing help! I am going to provide food (we have no budget/money, but I am going to do my best to get a donation... haven't failed yet) **so please RSVP if you can and let me know how many people you will be bringing to the meeting.** Thanks friends and I look forward to seeing all your lovely faces!

Neighborhood College is a one-of-a-kind collaboration of workshops and hands-on learning experiences brought to you by multiple city departments. The intent of the program is to provide each participant with knowledge about the city's programs, services and resources; the tools to access those resources; and the skills and ideas with which to build positive, sustainable communities. Everyone is welcome! Regardless of whether you're a seasoned community leader or a new resident just looking to get to know your new home better, Neighborhood College is flexible enough to meet the needs of all Phoenix residents! We hope to see you at one of our many free workshops – and encourage your neighbors to do the same. **To sign up, call us at 602-534-4444. Online registration:** We've partnered with the Parks and Recreation Department to use their online enrollment process. You will be taken to "Parks and Recreation Online" where you will need to sign up for a free account. This is a one-time process that will only take a few moments. You will then be able to use the site in the future to sign up for any additional workshops.

## AN INVITATION TO ALL BLACK MOUNTAIN COMMUNITY ALLIANCE MEMBERS and ASSOCIATES TO TOUR THE CITY OF PHOENIX LABORATORY SERVICES BUREAU

Every Tuesday and Thursday at 10 am and 1 pm, we hold tours of our building at 621 W. Washington Street for those who are interested in Science, Biology, Crime Scene, Evidence Processing, etc., or what it is we actually do. It has become a very sought after event for many citizens of Phoenix and visitors to our state. I want to go a step further and extend an invitation to other stakeholders throughout the City of Phoenix, community groups and organizations, but most importantly your organizations – Black Mountain Community Alliance and the East Black Mountain Partnership. I feel it is very important for not only our citizens to understand what it is we do behind our walls. This will give you all a great opportunity to understand what happens on the back side of the crime we hear about daily and helps you all understand the need for our services to the community. I am opening our doors to you and would love to have as many of your organization attend a short tour of our building at your convenience and pleasure.

## BLOCK WATCH IMPROVES THE QUALITY OF LIFE WITHIN NEIGHBORHOODS

Block Watches come in all sizes. They can be a few houses in a cul-de-sac to a whole square mile neighborhood. They help to develop a "sense of community" and strengthen and sustain neighborhoods by bringing residents/neighbors together with a common interest.

Every Block Watch starts with one person and their concern for the safety and well-being of themselves and their families. Their motivation may be to meet or get to know their neighbors to protect the children, to keep property values up by eliminating blight and graffiti, to stop speeding on the streets by installing speed humps to protect the children, to have peace of mind by discouraging barking dogs and loud parties, and to be safe from crimes like burglary, theft and assault.

We all want to live in a safe and secure environment. Our homes should be safe havens. By rights there should be several layers of protection from the national level to our own neighborhoods. National and state governments provide control of our borders; state and city governments provide police and fire protection, education, and other resources, community member groups provide Phoenix Neighborhood Patrollers and the posting of PNP signs on neighborhood streets; Block Watch provides neighbors watching out for neighbors; and we provide our own home security alarms, lighting and burglary prevention measures.
