

Jaronsky adds "SOLO" to resume

David Jaronsky (right) standing with his flight instructor Geoffrey Orlandi after Jaronsky made 3 solo takeoffs and landings at Blairstown airport on August 17, 2013. Jaronsky is in training for his Private Pilot Certificate with Orlandi, owner and Chief Flight Instructor at ORLANDI FLIGHT CENTER. We at OFC admire David, a 2013 graduate of NORTH WARREN REGIONAL High School and a Frelinghuysen resident, on his dedication and commitment to achieving his goals. He is proof that even with school, a job, and limited funds you can become a pilot if you have the desire and determination. To learn more about enhancing your life like David has, contact Orlandi at 201-874-5458, go to orlandiflightcenter.com, or stop by the airport where OFC operates full time all year around.

The Youngest Flyers

These 9 to 13 year old aviators and their parents understand that flying is the answer because of the value it brings to their lives. Pictured are Ford Wulster (back), Nick Arena, Tom Dugan, Sean Daly (left to right) and Flight Instructor Geoff Orlandi (front).

As flight school students these budding pilots not only acquire valuable skills and discipline that will set them apart, but in the process they learn STEM (science, technology, engineering and math) the fun and exciting way; BY FLYING. Contact Orlandi Flight Center at Blairstown Airport to learn more and schedule your child for an Introductory Flight Lesson; it makes a great gift idea and

GIFT CERTIFICATES ARE AVAILABLE!!!
