

Testimonials for the Holistic Practitioner School with Katie Ramaci

The Holistic Practitioner School was a fantastic introduction to the healing arts. The class very hands-on with many opportunities to practice what you learn, and ask question that only come up while “doing” the work. Katie always had readings, handouts, homework, and exercises prepared for class - - we did not waste a minute of class. In addition, Katie regularly brought healing tools to class for us to use and experiment with - - hence the very hands-on nature of this program. At the end of the program, I felt like I had learned and accomplished a great deal, and regularly use what I learned to help my friends, my family, and myself live a better life.
