

Week 2: My wishes and ambitions.

Our learning for transition

Learning that needs to be returned to your new teacher:

We would like the children to think of **three wishes** for their next school year. This could be to do with friendships, learning, behaviour and new skills that they would like to learn. We have uploaded a sheet named 'wishes' that you could print out and use however if you are unable to print out, you can write them down in your own way.

Inspirational person

Research someone who you think is inspirational and has achieved something great. This could be a famous sports person, athlete, singer or designer. Present your findings anyway you would like. Poster, presentation to your family, a fact sheet or drawings.

Amazing person:

We would like the children to celebrate what is great about themselves. We have attached a sheet named '**amazing person**' which could be used. Your child may need support to complete this. Alternatively, your child might want to present how amazing they are in their own way.

Have a go at our visual Maths puzzle. How many triangles can you see?

If you would like to continue with daily Maths and English tasks, please use BBC Bitesize.

Encourage your child to read, access Bug club, TTRockstars and Numbots.
