

MILLENNIAL TETRAD

BLOOD MOONS OF 2032-33

Evidence for why the Rabbinical Calendar is Off

'And never again will I destroy all Living Creatures as I have done. As long as the Earth endures, Seedtime and Harvest, Cold and Heat, Summer and Winter, Day and Night shall never cease'. -Genesis 8:21-22

The purpose of this study is to examine the Tetrad of 2032-33. It is assumed that a Tetrad is automatically associated to some sort of Prophetic Implication. Perhaps. But realize that Tetrads are not uncommon. What is a Tetrad? To begin with, they consist of 4 consecutive Total Lunar Eclipses. Such are called Blood Moons as the color hue becomes reddish due to the filtering-out of the Light Spectrum, once the Earth' Shadow totally ingulfs the Moon.

A Total Lunar Eclipse occurs every time the Earth is directly in-between the Sun and the Moon. The Tetrad Blood Moon phenomenon began with the popularization of the event that occurred in 2014-2015. Many believe the Oral Tradition of the Rabbinical Jews that state that Blood Moons are a 'Bad Omen' for Israel. Then the Evangelical Community has attributed such a Celestial Sign with Israel as being an End Times Sign. Sign of what? That has remained elusive to pinpoint although there are some good Educated Guesses. One has argued that the Tetrad has been a 7-Year countdown since 2015.

For example, since the phenomena was brought to the forefront of Eschatological Studies, or that to the End Times, the Tetrad of 2014-15 was the 8th one since Jesus. Now, what has distinguished these 8 Tetrads since Jesus is that all 4 Lunar Eclipses fell precisely on the Rabbinical Calendar when YHVH's Feasts of Passover and Sukkot occurred. This was and is the difference. There will be subsequent Tetrads since 2014-15. For example, the next in the series occurs in 2021-22. But it is not exactly 4 Total Lunar Eclipses. The 2nd Lunar Eclipse in the series was only 97% Total.

So, the Tetrad of 2021-22 does not really constitute a true Tetrad in the Astronomical sense. However, that 2nd Lunar Eclipse had some amazing figures that overshadows the other 3 Lunar Eclipse to come. For one, the event of this magnitude, being the longest since 1440, echoes the coming Anointing and Calling of the 144,000 Jewish Males that will be the Evangelists during the Tribulation Period. They will carry on the Mantle of the Witness of Jesus Christ. Why? It is because the Church Age, being roughly now over 2022 years since Jesus' death and the birth of the Church Age will end with the Resurrection-Rapture event. The Bride of Christ will no longer exist on the Earth and such a Dispensation of Mercy and Grace will revert back to Law. The Prophetic Epicenter will center around Israel, Jerusalem and the coming 3rd Temple.

Celestial Bench Marks

It will be the start of the Daily Sacrifices, as stipulated by the Prophet Daniel what will countdown the 1260 segments of Days for each half of the last Sabbath Cycle Israel owes YHVH. It has to do with Israel's discipline. It is to enforce the Seal Judgments, and whole host of other Promises that are yet to be realized. What will also be unusual is that in the 4th Blood Moon of the Tetrad of 2021-22 is that the last one, has its Solar Eclipse pair that will occur in Virgo. A conjunction of the Sun-Moon with Venus will occur. Prophetic? Jesus referred to Himself metaphorically, as the 'Bright and Morning Star'. Is this Celestial Sign significant for the Bride of Christ to take note of?

Or will it be for Israel, thereafter as the Bride of Christ has been Rescued and Evacuated from off the Planet? Now to the Tetrad of 2032-33. There are a couple of observations first to consider. It is first of all, a true Tetrad of 4 consecutive Total Lunar Eclipses. They begin in the month of April 25, 2032 and end on October 8, 2033. Now if one goes strictly by the conventional inference that a Tetrad is 'significant' and/or Prophetic, it is when all 4 Total Lunar Eclipses occur on the Rabbinical Calendar that commemorate YHVH's Feast Days of Passover and Sukkot.

However, if this is applied to the Tetrad of 2032-33, it is not the case and thus, it would not be considered a 'Biblical and/or Prophetic Tetrad'. It will be shown by the Data from NASA and Hebcal.com that for the year 2032, the Feasts of Passover and Sukkot are 1 Month early. This now is where the discrepancy and evidence come to play in that many believe the current Rabbinical Calendar is off by 1 month on certain years. And the year 2032 would be the case. In fact, the 1 Month discrepancy would actually place the April 25, 2032 Total Lunar Eclipse right on 2nd Passover, which is rather interesting.

Also, note that the Torah Calendar, although they have done great work and contribution to the possible true calculations of YHVH's Calendar is also off by 1 month, in this case for 2032. Why? The true Calendar of YHVH is both a Sun-Moon Calendar but is and must be synchronized to the Equinoxes and Solstices Why? It is to maintain calibration. These 4 Celestial Bench Markers are what binds and equilibrates the Sun and Moon cycles. Meaning? That the 1st Month, the 3rd Month and the 7th Month need to occur on the 1st New Moon after the respected Equinoxes and Solstices. This is now one would avoid the Rabbinical Calendar being 1 Month off in certain yearly cycles, as in this case, for 2032. Rabbinical Judaism is what was left and was codified after the destruction of the Temple in 70 AD, as the Daily Sacrifices ceased.

Then the city of Jerusalem was ransacked and Inhabitants disposed in the mid-130s AD. Lastly, the Sanhedrin disbanded in 358. Israel, as a Nation ceased to exist because the Romans scattered the last remaining Tribe of Judah to the 4 Corners of the Globe. Before the Sanhedrin disbanded, they set the Calendar based solely on the Lunar Cycles. So, what about the Tetrad of 3032-33 then? If one does adjust for that 1 Month discrepancy and pegs the year 2032 to the Equinoxes and Solstices, then the Tetrad of 2032-33 truly will be a Prophetic or Biblical Tetrad. Whereby, all 4 Total Lunar Eclipses will occur on Passover and Sukkot. Now if that will be significant? One will try to explain at the end the possible Prophetic Inferences to this Tetrad of the Millennium.

Which Calendar?

So, based on the Astronomical Calendar, April 11, 2032 is or should be the 1st Month Nisan, for the Jewish Nation, etc. It is the New Moon after Spring Equinox of March 20, 2032. Then 14th day out would be Passover on a Full Moon, April 25, 2032. This day corresponds to the Total Lunar Eclipse and start of the Tetrad 2032-33, which one has dubbed the Millennial Tetrad. Why? Perhaps this Tetrad will constitute the initiation of the 1000-Years of the Kingdom Age on Earth ruled by Jesus Christ from Jerusalem. The subsequent Tetrad will occur in 2043-44. But then also in 2032, using the Rabbinical Calendar, Sukkot falls on the very Fall Equinox of September 20, 2032. The 'Fall' Feasts have to occur after the Equinox.

This is why the Rabbinical Calendar is off 1 Month for this cycle. The true 7th Month follows the same exact Astronomical Protocols as the Spring Equinox one. Thus, the 7th Month would be determined by the 1st New Moon after the Fall Equinox and then count the 5 days after Yom Kippur. For 2032, the 7th Month, should not be corresponding to September 20, 2032 but October 5, 2032. This would be the 1st Day of the 7th Month, Tishri. Then the 14 Day would start the 7-Day Feast of Sukkot. The Feast would be on October 18, 2032. This would then correspond to the 2nd Total Lunar Eclipse, or Blood Moon of the Tetrad for 2032-33. The following Data Points correspond to the various mechanics of why for 2032, the Rabbinical Calendar is off by 1 Month.

For the year 2032, the Rabbinical Calendar is off by 1 month as the dates are not synchronized to the Spring Equinox. The 1st Month would be the 1st New Moon thereafter.

Torah Calendar goes by this counting and it is wrong also for the year 2032.

NOTE: April 14, 2033 (2000-Year Count)

Blood Moon occurs on Passover and many People will calculate the Tribulation based on Jesus being crucified on April 14, 33 AD, which is not correct.

When does the Millennium Start?

The following section will delve into several of the nuances that one believes are worthy to examine and consider, given the timeline and year that this Tetrad of 3032-33 occurs. How so? Consider that if it the case, as many Bible Scholars have presented, that if Jesus was indeed born on September 11, -3 BC, then He would have been 33 years-old in the year 32 AD when He died and the Church Age was born. Moreover, this year then of 32 Ad would be when the nexus of all Human History changed its course that had a lost Humanity headed for Hell. Not only did Jesus die that year but was buried in the Earth and then 3 Days later, as promised in the Bible, rose from the Dead. Jesus, at that point in time destroyed Death, Sin and defeated Lucifer by Death.

It is also the year that the Church Body was indwelt with GOD the Holy Spirit to carry-out and complete the Royal Commission to take the Gospel to all Generations on Earth. It began a Dispensation of Time, called the Church Age, the Mystery Age of 7 Church Types and Times, the Bride of Christ, etc. It was a specific Time that the Call to Come and be Saved was granted to the Non-Jews or the Gentiles as Israel received a 'Time-Out' for 'Bad Behavior'. Thus, if 32 AD was the Time that the Prophetic 2 Days started, as in '1 Day is as 1000 Years', then 2032 would equal now exactly 2000 Years or those 2 Prophetic Days of the 7-Day Creation Pattern. Why is this significant? Consider if one carries-over the 7-Day to 7-Millenia template to 2032, it means that from Adam to Noah was 2 Days or 2000 years. Then from Noah to Christ Jesus was 2 Days or 2000 Years.

Then from Jesus to the Rapture or end of the Church Age will be 2 Days or 2000 Years. This now leaves the Sabbath Day or Rest or the 7th Day. This will be the 1 Day or 1000 Years, to be fulfilled by the return of Jesus with the Bride and rule the Kingdom Age on Earth, called the Millennium. If one then reverse-engineers the 7-Year Sabbath of Daniel's 70th Week of Years, that would be $2032 - 7 = 2025$. Meaning? One could suggest that 2025 would be the latest that the Tribulation Period would have to start. However, there is an underlying theory that stipulates that if and when the last Sabbath or Daniel's Week of Years is to start, that it has to start at the beginning of a brand-new Sabbath Cycle. According to some estimates, the next 7-Year Sabbath Cycle would then be starting in the Fall of 2022 to Fall of 2029. But there is a factor of 3 years.

The other factor has to do with the measurement of the Great Pyramid having a coefficient of 3022. This is if one adds 1000-Years to 2022. But if the Millennium starts in 2032, then there is a 10 Year discrepancy. One thing is for sure, the acceleration of Prophecy and the Birth Pangs that suggest a sooner rather than later start to the Tribulation Period. Now also consider that due to the work of Ken Johnson, his findings corroborate the start of the Tribulation Period with 2025. This is based on how the Essenes counted the Jubilee Cycles, etc. Why one believes, up to this point and time that the Tribulation would very well start in the Fall of 2022 is the following. It does have to be said, in all fairness that the Theory of the Sabbatical Cycles in question, to some or many are an 'Irrelevant Distraction'. Perhaps. Many argue that in Matthew 24, Jesus gives the comprehensive list of things to expect and watch for, that run-up to the point that He says, ... 'and then the End will come'. This is true but one is of the opinion that the context was not bearing in mind the Church Age. Why not?

Sabbath Cycles

The Church Age was not fully revealed and explained until Paul, 'I show you a Mystery', etc. It is an issue of being short-sighted in that, sure there is nothing in the list about 'Sabbatical Cycles of Years'. But that is the Understood Variable from the get-go as the Disciples were all Jewish and that is foremost how they calculated Time. To consider otherwise is just imposing one's Western Prejudices. In fact, one would and could argue the opposite in that Jesus specifically clocked the Time when even the Abomination of Desolation would be set-up and happen. And this he linked to Daniel, directly. The Disciples new that it would exactly occur in the 'midst' or at a future 1260th day of that Week of Years, that clearly they understood the whole context of Daniel was about and is and will be, a Sabbath Cycle of 7-Years, that is what the Tribulation Period is and will be.

In addition, while some Christians in the Body of Christ have opened to the lost Knowledge of Biblical Astronomy, such as Tetrads, some would go as far as to say that the Sun, Moon and the Stars can be used to determine Seasons, Feast Days and the like. But such then stop and reasons that there is no 'Scriptural Mechanism' for determining the Sabbatical Year Cycle. Pure ignorance. All one has to count is from the 1st Month when Passover is decreed to be observed, then counting to the 7th Month. This is when the last Feast is to occur, with Sukkot, a 'Sabbath Cycle' of Months in this case, but the principle is the same. Again, an issue of not seeing the Forest from the Trees. What is not being taking into account is the Oriental Mind-Set and reckoning of Time that the Jews, clearly understood and were given as a template since Creation Week, a Sabbath Cycle.

To deny it is pure chosen ignorance. If there are no Sabbath Cycles, then Pentecost would not be able to be calculated. If no Sabbath Cycles of Years would be 'knowable', then YHVH could not have decreed 70-Years of Exile for the Jews to go to Babylon, etc. One can go on. What is the Sabbath Cycle of Years and where did it come from and how does one know the present count is accurate? The count is based on multiples of 49 Years. As far as when the count started, Floyd Nolen Jones proves it in his Old Testament Chronology. The '0' Clock start (Ages or Dispensations) for the reckoning of Sabbatical Cycle of Years and Jubilees was Spring (Nisan 1), 1443 BC. Here is why with numerical emphasis and inserts.

'According to the research and work of Floyd Nolen Jones. The year Moses died and Joshua entered the land was long ago determined by Ussher, Bishop Lloyd, Monsignor Toinard, William Whiston and now independently confirmed by this author as 1451 BC. However, the conditions concerning the Year of Jubilee did not have to do with merely being in the Promised Land but with its actual Possession and Cultivation (Leviticus.25). [This was the same case for Israel returning in 1948. It was not until 1952 that the Cycles became synchronized again.] As documented heretofore, the Tribes divided the Promised Land in 1444 BC after 7 Years of War with its Pagan Inhabitants. They would have planted that Fall. Thus, the Jubilee and Sabbatical Count would have begun the in the Spring of the following year (1443) with the Harvest of the 1st Crops (Leviticus 25:3, '6 Years thou shalt ... gather in the fruit thereof.').

Tetrad Time

This places the 15th Jubilee as commencing in the Autumn of the year beginning in 709 BC and ending in the autumn of 708 (II Kings 19:29; Isaiah 37:30, cp. II Kings 18:32 and Isaiah 37:17). Further, Biblical Chronological Studies with regard to the Years of Jubilee (especially note Isaiah 37:30) yield the result that 27 AD [28 AD as Jewish Year straddles Western Calendar] was a Jubilee year (again, Josephus concurs, Flavius Josephus, Josephus Complete Works, trans. by 8 AD] William Whiston, Grand Rapids, MI: Kregel Publications, 1960, Appendix, Dissertation V., 55, 56.)

This is manifestly confirmed by Jesus' message at the Synagogue at Nazareth near the onset of His ministry when He read from Isaiah 61:1-2a. This portion of Scripture is an undeniable Offer of Jubilee (i.e., the Kingdom; viz., 'To set at Liberty them that are Bruised, To Preach the Acceptable Year of the LORD'. Luke 4:18-19). Jubilees began on the 10th Day of the Jewish 7th Month (Leviticus 25:8-12). The Sabbatical 'Clock' did not begin until Nisan 1, 1443 BC. Moses died and Joshua crossed the Jordan in 1451 BC. Then 7 Years of War followed, bringing us to 1444 BC as the year the Tribes divided the Promised Land.

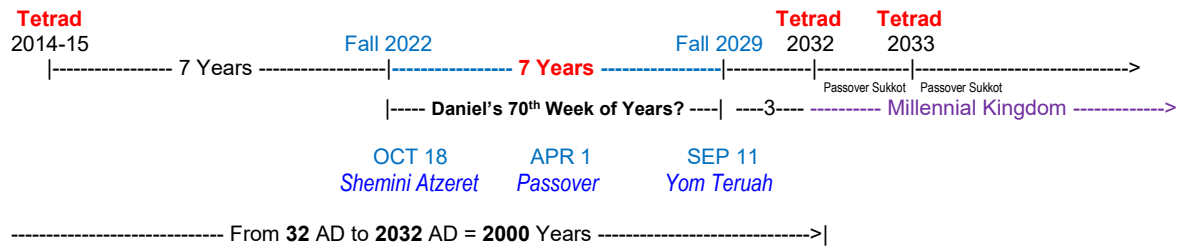

Planting that Fall would have brought them to Spring 1443 BC for the 1st Harvest, thus the epoch of Sabbatical and Jubilee Years began then. The Cycles were for Agricultural Purposes. The 1st Sabbatical Year began 6 Years later on 1 Nisan 1437 BC. Thus the 7th Sabbatical began 1 Nisan 1395 BC. Thus, the 1st Jubilee began 10 Tishri 1395 BC. Thus the 30th Jubilee began 1421 years later (29 x 49) on 10 Tishri 28 AD. This is in agreement with Floyd Nolen Jones, Bishop Lloyd, Monsignor Toinard, William Whiston, Josephus and Ussher.'

Therefore, the next Sabbath Cycle would start in the Fall of 2022 to Fall of 2029. And why emphasize all this? If such a Sabbath Cycle Pattern is valid and true, then Fall 2022 to Fall 2029 could very well be Daniels last Week of Years. Now why all this becomes potentially Prophetic and Exciting is that based on prior research of this 7-Year Time Period, it has been suggested that if the 1st Day of the Daily Sacrifices are the cause to inaugurate the 3rd Temple, say at the end of the Fall Feast in 2022, a subsequent 1260-Day count would land on April 1, 2026, which is Passover that year. This would be the Midpoint of the Tribulation, as the Daily Sacrifices would cease by command of the False Jewish Messiah. Then counting the subsequent 1260-Days, would correspond to September 11, 2029, on Rosh HaShanah.

There will also be the return of Jupiter within the Sign of Virgo, reminiscent of the Revelation 12 Sign of 2017. The book of Daniel also speaks about the 1335th Day, which is 75 days after Jesus returns. It is believed by many that there will be the Transitional Period, whereby Jesus will cleanse the Temple Mount, Jerusalem, Israel, The Earth, the Nations and separate the 'Sheep from the Goats', etc. He will then prepare the People and the Earth to enter the 1000-Year Kingdom as GOD and LORD of All. This would take the timeline up to November 25, 2029 and perhaps this could be the period of discrepancy pertaining to the 3 years and then a possible 7-Year Sabbath of Renewal to equal 10 years, etc. However, if the issue of the Tetrad of 2032-33 is significant, then it could very well be signaling of when the Millennium will start.

Will it take that much to a Transition for the whole World to enter into the Kingdom Age? One question could be asked is, what sort of Time or Calendar will Jesus keep during the 1000-Year Kingdom? Will it be a 360-Day or 364-Day Calendar? Realize that in each Transition of Dispensations, there has been some overlap of sorts. So, this could be in play. Nonetheless, in terms of the 2032-33 Tetrads, it is really a True Biblical one that if one uses the Astronomical Calendar, the 1st 2 Blood Moons do fall on the Lunar Eclipse days.

One is of the opinion that the Tetrads are used as a Countdown Time Piece. This was and is believed to be the case with the Tetrads of 2014-15. How so? In that, it was synchronized to the Sabbath Cycle. Meaning that 7-Years from 2015 would be 2022. But, given the evidence for the Astronomical Reckoning of Time, it shows clearly that the Rabbinical Jewish and the Torah Calendars are off by 1 Month in certain cycles; in this case in 2032. The following is the suggested Timeline.

The true YHVH Calendar Calibration of when the 1st, 3rd and 7th Feasts are to begin, and to determine both the Religious and Civil New Year ones, has to adhere to the Equinox and Solstice Astronomical Benchmarks set-up by YHVH. Why? They can be key in determining when the Church Age will conclude with the Rapture event. How so? If, out of the 3 Mandated End-Gatherings Israel had to oblige, Passover, Shavuot and Sukkot, it is the middle one, Pentecost that has determined the Time Frame for the Church Age. It defines when it began and perhaps when it will end.

All 3 End-Gatherings speak of Harvest Types, People Groups, and Resurrections. What is next to occur is the Resurrection-Rapture sequence of the Body of Christ that follows the 'Head', that of Jesus who was and became a Token of the First-Fruit offering. This 1st Resurrection guaranteed the whole Harvest to come thereafter. Thus, if the Sabbath Cycle from Fall 2022 to Fall 2029 is or will be Daniel's 70th Week of years, and if the Tetrads of 2032-33 signals the Millennial Tetrads, then perhaps, truly by the Pentecost Season of 2022 will be the greatest High Watch Time for the Bride of Christ.

May she end as she began with Pentecost, the End-Gathering of the 7-Feast Type of Menorah that divides the arms and provides a corresponding Chiastic Effect. And realize, prophetically as Peter was and is a type of Collective Israel that has denied Jesus as Messiah 3 times, on Passover, on First Fruits and Pentecost, Jesus restored Peter as He will Israel. After Jesus' Resurrection, Peter was asked 3 Times 'if he loved Jesus'. Peter affirmed the 3 times that he did. Peter was then restored for the 3 negations he had made foolishly during Jesus' Arrest and 7 False Trials.

Do not we all that follow and believe in Jesus do the same? Nonetheless, the present Pentecostal Age has been a reprieve for Israel, side-lined and now about to be brought back, although in Unbelief to 'Settle the Score'; to be 'Square with the House, YHVH's House'. This is the reason for reserving the Last Sabbath Cycle owed of Israel to YHVH, for not keeping the Sabbath Rest of the Land.

But it will take a Time of Jacob's Trouble to make Israel see that at Jesus' return on Yom Teruah that Jesus is LORD and GOD. Israel will be redeemed and confirm Jesus as LORD, Savior and GOD, on Rosh HaShanah, Yom Kippur and Sukkot. These will be the 3 Feasts and opportunity for National Israel, that like Peter to affirm 3 times to say, 'Blessed is He who comes in the Name of the LORD'. And thereafter, a few years will begin with the 1st series of Total Lunar Eclipse on Passover and Sukkot for 2032-33.
