

What do students (and parents) say about writing class or publishing workshop?

Ian said he was disappointed when he looked up and saw me- he didn't want class to be over! Thanks for working with him- I could tell everyone there was really enjoying your class.

We nearly sold out of Nicole's books today ... I have one left and it is spoken for. Another lady tonight asked if she could buy 10 of them! I was like, "Wow!"

Megan's Great Fear

Proud parents over here. Our daughter published two books with Phyl in one summer, has made sales, has been invited to speak at schools, and was even asked to speak to adult groups about her writing!

Life of a Boy with Big Dreams
They Counted Us Out

When I started offering affordable writing classes for young people, I met amazing authors who have made incredible books with me. I don't turn adults away either; we are all kids with dreams inside. I added adult classes in summer 2016. Visit my website to find links to all the great books that my students and clients have published on Amazon. I have learned so much about self-publishing on a budget. Each book I publish includes improved techniques that I pass on to my students. Will your book be next? What are you waiting for?

Phyl is an author, publisher, and teacher with a creative mind. Her claim to fame includes helping kids as young as 6 get published on Amazon. We're all kids at heart — do you have a story to share?

PHYL CAMPBELL

Author, Mother, Dreamer

www.PhylCampbell.com

Location, Location, Location

Phyl teaches, offers workshops, and provides one-on-one coaching. Call or email today to bring Phyl to your next educational event or sign up for her next class or workshop. She'll also come read fiction to children or adults. Every Phyl Campbell book for children is an educational experience; selections from books for middle grades and up entertain listeners of all ages.

Ages and Stages

Phyl works with all ages of storyteller, at any stage of the story from crazy idea to the manuscript that just needs a final polish.

Ghost-Writing

Shhhhh! But yes, she does that, too.

Editing, Resumes, Marketing

Sometimes you have to get the work and make the money before your story is ready to be shared. College students, professors who speak English non-natively, moms in need of a fresh start — wherever you are in life, Phyl can help you take that next step and look good doing it. And while as a rule, Phyl isn't a marketer or graphic designer, on a budget and in a pinch, she has the skills to patch you to the next better thing.

Games, Icebreakers, and Conversation Starters

If you love games, and are looking for the next new thing, ask Phyl what she's got up her sleeve. You won't be disappointed.
(Hint: it's her arm)

But How Does It Work?

That depends.

Where are you in the project? What are you looking for help with?

Phyl charges an hourly rate for consulting, editing, and preparing files. Ultimately, she prepares computer files that become print books. (She can format for epub, but prefers print books for many reasons).

Who will provide your cover art?

Ask Phyl about sites she recommends for art that can be used commercially for free (or cheap, or other criteria). Phyl also knows many talented local artists and can connect you.

Who will print your book?

Many different printers can upload your book to Amazon. Let Phyl tell you about printers she does and doesn't recommend depending on your end goals.

What's your budget? How will you invest in your book?

Some people NEED to own their ISBN or LOC number. Others couldn't care less. Some only want to make books to put in the hands of children, abused women who need hope, or crooked politicians who need to see the light. Others are selling the book as one of many side hustles, and need the best pricing they can get on inventory so they have money left for advertising. Whatever your why, Phyl is ready to help!

Anything Phyl doesn't do? She's so glad you asked!

Phyl doesn't republish other people's words without their permission. No quote-filled inspirational gift books and absolutely no plagiarism. She want YOUR words, not someone else's. Famous people are already famous for a reason and don't need your help. They're also unlikely to help you.

She doesn't help Christian groups proselytize. Specifically, individuals or groups who cling to misguided beliefs that poverty, sexuality, race, or gender can be prayed away need to look elsewhere for writing and publishing help.

She likes character-driven or stories and she loves to learn new things. She isn't a fan of the romance genre, but can handle romance and sex scenes (especially if the sex is bad — good writing about bad sex).

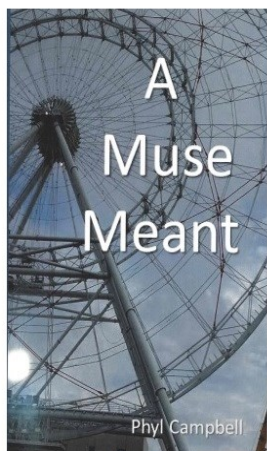

In addition to fiction, Phyl has helped clients write about traumatic experiences and the need for different kinds of justice. Writing is cathartic and inspires growth and personal evolution. Phyl draws inspiration and strength from these journeys and these mighty warriors.
