AN ALUMNI NETWORK THAT OPENS DOORS

When you say “Saint Rose” out in the working world, it opens up a wealth of opportunities. That’s because our close-knit students become proud alumni ready to share their success. →

HOME. OF THE MOST AMAZING YEARS OF YOUR LIFE.

If we seem excited, you're right. It's because we can't wait to share all the incredible things in store for you at Saint Rose.

When you enroll here, you're investing in a lot more than classes, educators, or a degree. You're investing in a brighter future, with one of the highest employment rates after graduation of any school around, and a uniquely supportive, ultra-connected alumni network.

And just as important, though, you're investing in a college experience you wouldn't trade for anything: where exceptional teachers become your mentors, helping you define, and reach, your personal goals. Where creativity and innovation have a permanent home. Where a diverse campus and community welcome you with open arms, and stay with you long after graduation. And where activity in the New York Capital Region, on the playing fields and around campus opens up a world of opportunities to be involved, engaged and—like us—excited.

Saint Rose Graduate Studies

Graduate education is all about taking the next step—and Saint Rose takes that step with you.

Even when it's your life's goal, growth can be hard. So whether you want to expand, accelerate, or change your career entirely, the graduate programs at Saint Rose are designed to make it easier for you.

More than an exceptional education, we create an experience designed around you: We offer not only a renowned, well-connected faculty, but small classes with a level of personal attention and guidance that few other schools can offer. We help you secure real-world internships based on your interests and what's most relevant in the world. Most of our classes are held in the evenings or part-time to accommodate your other commitments. And ours is an affordable education that pays for itself in results.

We know that the choice of graduate school can be one of the most important decisions of your life, and we don't take that responsibility lightly. So we've invested, and continue to invest, heavily to ensure that our three graduate schools—with nearly 100 Masters, certificate and licensing programs—give you the best possible chance to achieve that life's goal.
