

ONYX – OCTOBER 21, 2011

We got our beautiful black lab from Chuck and Lorri Whiteman about 1 1/2 years ago and couldn't be happier with the exceptional quality of this dog. Although we don't use her for hunting, she demonstrates all the great qualities of a hunter: she tirelessly retrieves on land and water to the point that her body shakes and her tongue is hanging out sideways; she is genetically gifted with great conformation and a beautiful coat; loves people and other dogs; and is a strong and fast swimmer and runner. Chuck and his wife, Lorri, did a fantastic job breeding these healthy and beautiful animals- we're looking forward to Chance's next litter of chocolates. We have a yellow lab that we got from a breeder in PA that has poor conformation and other chronic health issues. After seeing the quality dogs that Chuck and Lorri raise, we'll never use another breeder.
