KEEPING MOTIVATED

We hope many of you have found our new reward program to be helpful in staying motivated to practice, perform, serve, and look for other ways to enhance your musical skills. This year's reward program will go through the end of August so keep working hard over the summer to achieve your stars!

When students reach 50 stars, a small prize is awarded; at 100 stars, students may choose from our extra special prizes. Remember, there is no pressure to participate in the rewards program; it is merely an effort to keep our students **motivated** to accomplish their musical dreams.

Music Conferences: With a great investment in the musical success of our students, we would love to provide a new opportunity for families to have a time to discuss all the individual progress from the last year, provide idea for further growth, and collectively set goals for the next year. Please arrange a short time for this meeting prior to or after a lesson this summer.

Summer Lessons: With summer schedules on the horizon, please let us know the best day/time for lessons. We aim for consistent weekly lessons all throughout the summer (except the week of July 4th), but understand when students must occasionally miss for exciting summer adventures. Summer lessons will also allow you to reserve your fall spot as our wait list continues to grow with new students.

Saying Good-bye: Best wishes to Laura Paakh as she moves to San Diego to further her education. We were so grateful to have her teaching with us but wish her all the best in her future!
