Dear Parents/Carers,

Nursery Communication

We are so happy with how all of the children have settled in and we are really enjoying getting to know them. We just wanted to tell you about all the different ways we communicate with you at Hopping Hill Nursery.

When you collect your child we aim to tell you about your child's day and if they have had any bumps.

We use Tapestry to communicate your child's learning and to remind you about any upcoming events. Please download the app and add any photographs and videos as we really love to see what they have been up to outside of Nursery. If you have not yet activated your Tapestry account please let the office know and they will reset it for you.

We have introduced a changing book, which will stay in your child's bag for us to log any toilet or wet-play accidents so if your child has had a change of clothes you will know why.

We also share our learning experiences on Twitter - you can follow us on @hoppinghillers. You can also email on claire.underwood@hoppinghill.northants.sch.uk.

Many thanks,

The Nursery Team
