From the President's Desk:

If you have moved in the last year be sure to let us know so we can update your mailing information. It's easy to email me at president@yorkiwa.org or snail mail a note to the club. This is important because we're getting close to renewal season. Every year several members don't get their renewal notices and when they call or email we always ask "Have you moved in the last year?" and they answer "Oh, I guess I forgot to notify the club". Don't be that person.

Renewal notices should go out in November, and the format is going to change. The biggest difference will be where you return the notice and payment to. Pay attention to the information in your packet. We are trying to make the system smoother and faster.

You should get your new membership card within days of mailing your renewal notice and check. Once again your membership card will be on a postcard.

BUILDING & GROUNDS

We will also have a club work detail Sunday, September 26th at 9:00 am. When attending these work details always wear old clothes, boots and gloves. Bring saws, rakes and other similar implements to these first two work details. Trucks and trailers for moving brush and wood are a plus too. We may also do some painting that day.

A note from Buildings and Grounds:

Before doing anything that involves equipment (mowers, backhoe, pickup truck), removing vegetation (trees/bush/ornamental plants) or any infrastructure work (clearing/making new/marking hiking trails, filling potholes, repairs to buildings), please check in with a member of the B&G crew, Howard, Gary or Kayden. There may already be a project plan, or ongoing equipment repairs you would not be aware of. It would be troublesome if a well meaning volunteer used up materials slated for a project the next week, or damaged a piece of equipment that was in a repair state. Just give us a call, we desperately need the help, but it must be in an organized way. We have projects and plans in the works, which can be thwarted by well meaning, but uninformed volunteers. Thank you so much for your time and effort!

TROUT NEWS

Summer seems as though it just began and now, fall is upon us—which means it's Trout Time. The time has come to prepare the nursery for the new batch of trout fingerlings arriving mid-October.

Our initial Trout Nursery Clean-up is scheduled for Saturday, October 9 at 9:00am. Jerry Lauer and I are working on the details for cleaning the filter box and fish pen.

Anyone interested in learning more about our nursery— please join us that day or contact Bob Nelson. It is a great way to meet new people and see how the trout preparation process works. We always enjoy seeing new and old faces on October 9 to help out and enjoy the camaraderie with our trout prep work.

If you are a new member and want to volunteer for this 2021/2022 trout-raising season, please contact Bob Nelson, email address: treasure@yorkiwl.org.

LAKE TONIAN

The pond is finally back at full pool, actually flowing quite well out the overflow. If you watch the shoreline close enough, you will be able to see groups of fingerling bluegill, small fathead minnows, and the occasional crappie fingerling. This situation has not been happening for years, and a very good sign of the pond responding to our management efforts.

We will continue to encourage removing ALL largemouth bass under 13". All bluegill, crappie, and largemouth bass 13" and over must be released, unharmed, back into the pond.

There has been a turtle trap placed along the north shoreline. This can be seen as a square structure of white tubing. Until we can get the painted turtle population under control, this live trap will be a permanent structure throughout the spring and summer months.

Fall is quickly closing in, which means the fishing will get much easier and your chances of catching that trophy fish is greatly increased. Enjoy your time at the pond!
