

**ANTERIAL FACIAL SPACE MAINTAINER:**

Initial \_\_\_\_\_

A space maintainer keeps the space intended for a permanent tooth by preventing adjacent teeth from "drifting" and forcing permanent teeth to erupt in a crowded condition. This space maintainer is also for cosmetics.

**BEHAVIOR MANAGEMENT:**

Initial \_\_\_\_\_

Use of additional measures to help your child receive care. May include voice modulation, mouth props or desensitization techniques.

**SEDATION:**

Initial \_\_\_\_\_

To relieve tension and reduce fear. This is used for apprehensive and/or very young children.

**EMERGENCY SERVICES:**

Initial \_\_\_\_\_

May require a combination of the above techniques with follow-up visits.

I have been informed of and understand the treatment for my child. All questions have been answered to my satisfaction and I consent to the treatment.
