

Let's Dance

She said, she said, she said.

Careless words spoken in anger.
Thoughtless actions taken in haste.
These cannot kill our love.

Take another chance.
Just believe in romance.
Come on, my love, let's dance
One more dance.

She said, she said, she said.

Lose your inhibitions;
Let the spirits go.
Dance like you've never danced before.

Take another chance.
Just believe in romance.
Come on, my love, let's dance
One more dance.

She said, she said, she said.

When all is said and done
It was neither either one.
So, come on,
Forget it and dance.

Like water from the moon
Washing over me.
Come on.
Dance.
Forget all that

Let's dance the night away.
Let's dance our blues away.
Let's dance the world away.
Let's dance.

Just feel the beat.
Go with it.

Just dance.
