It is imperative that we have access to your swimming pool in order to provide the swimming pool maintenance that has been agreed to. If you currently have any locked gates, it is preferred that a combination lock be used. If a key lock is used the Service Provider will need to be provided with two working keys for each lock. If you add a lock after this agreement has been executed, please provide the Service Provider with the combination or two working keys prior to your next service day. Some people are allergic to bee or wasp stings and snake anti-venom is very expensive. Should your service technician come in contact with bees, snakes or other pests, they will report the situation to the store. Our counter help will contact you, making you aware of the situation and asking that it be corrected prior to your service technician’s next visit. Please contact us prior to your service technician’s next visit to let us know if he can continue to come or if more time is needed to correct the situation.
