Raptor Transport

Quite often a raptor is taken in by the Game and Fish, another program, or a responsible individual. Wind River Raptors then needs a driver to transport that bird back to the Center. These raptors are already crated and ready for transportation.

Sometimes transporation is needed for a crated raptor between Teton rescue center in Jackson and Wind River Raptors in Lander.

Having a list of potential drivers from across the state to pick up birds and get them to the Wind River Raptors Center quickly and safely is vital.

Anyone with a valid drivers license who is 18 years of age or older is eligible to be part of the Wind River Raptors transport team.

Please contact us to volunteer for this team!
