

## LUMBERJACK RC&D FORESTRY AWARDS

### Nomination and Selection Process:

Anyone may nominate individuals for awards. Recipients must meet at least one criterion in their category. Nominations must be received by the Lumberjack RC&D office by October 1<sup>st</sup> of each year. The Forestry Committee will choose award recipients at the October Lumberjack Council meeting and present the awards at the January Council Meeting.

### Friends of Forestry Award:

This award is presented to an individual or group in the forest industry for long-term support of forest stewardship.

#### Criteria:

- Leadership in the promotion of forestry and forest management among woodland owners.
- An advocate for forest management and the use of forest products among the public.
- Provided innovative and adaptive management examples so that others may learn from them and advance the practice of forestry.
- Leadership in the management of privately owned forests.
- Leadership within the forest products industry in the education/counseling of peers.

### Forest Steward of the Year Award

This award is presented to a private woodland owner (non-industry) for long-term support of forest stewardship.

#### Criteria:

- Leadership in the management of their own forest.
- Leadership among woodland owners in the promotion of forestry and forest management and education/counseling of peers.
- Practicing sustainable forest management, including good forest product utilization and be implementing best management practices.
- Advocate for forest management and the use of forest products among the public.
- Demonstrate a commitment to a land stewardship ethic that focuses on timber management, fish and wildlife habitat, water quality, soil productivity, aesthetics, and recreation – as a valuable legacy for future generations.

### Chairman's Special Achievement Award

This award is presented to an individual or group for outstanding contributions to promoting good forest stewardship through education and/or example.

#### Criteria:

- Advocate for forest management and the use of forest products among the public.
- Provided innovative and adaptive management examples so that others may learn from them and advance the practice of forestry.
- Used science and experience-based knowledge to implement timely management practices that have resulted in healthy productive forests.
- Leadership in the promotion of forestry and forest management and education/counseling of students, woodland owners, forest industry professionals or the public.
