

Laundry Day Laundromat

Laundry Day Laundromat is Newark's newest laundromat. Located at 10 Edgett Street, off of Route 31, near Wegmans. This family owned and operated facility opens at 5 am daily, with the last wash at 8:30 pm, and closing at 10 pm. For the grand opening special, ending March 15, the machines will be half off.

Our newly-renovated, bright facility is now open with top-of-the-line American-made machines, loads of well-lit parking, and a peaceful, inviting atmosphere. Soon to come is our convenient Wash & Fold service, which will allow patrons to drop off their laundry and return later to retrieve it cleaned and folded.

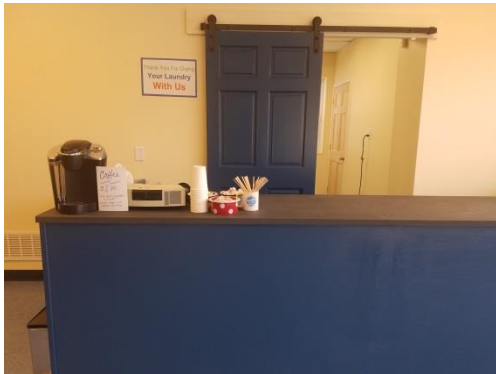

We offer the use of plentiful, high-quality machines made by Dexter (an employee-owned American company). The washing machine sizes range from small 20 pound capacity, and medium 40 pound, to large comforter-fitting 60 pound washers. The dryers are available in 30 pound capacity, and the large 50 pound capacity (for those items that just can't fit at home).

Beginning in October 2016, we effectively gutted and recreated the entirety of 10 Edgett Street. We took down walls, replaced the plumbing, updated the electric work, laid entirely new floors, expanded the bathroom, painted, and redecorated.

The other brand-new additions we offer include a soap machine, change machine, ATM, snack and beverage vending machines, comfortable seating, a great Kid's Zone, and free WiFi. Plus, Laundry Day will be a fully-attended facility from 6 am until the last load is finished every day.

After a year of planning and four months of construction, our goal for Laundry Day has always been to offer a laundromat that we can be truly proud of, and that the residents of Newark and the surrounding communities can enjoy using. We strongly believe that going the extra mile really does make a difference, and we know we can make everyone's laundromat experience great again.

Come see why you'll want every day to be Laundry Day!
