----------------	----------------

In an effort to provide your pet with the best care, pre-anesthetic blood work, IV catheter placement, and IV fluids are included in surgical and anesthetic procedures, subject to the pet's individual needs. While these steps are taken to make anesthesia as safe as possible, I understand that complications (including death) are an inherent risk of anesthesia.	
All patients must be free of external parasites. Animals with fleas and/or ticks present will be administered a preventative at the owner's expense.	
For the protection of our patients, all dogs being admitted must be current on rabies, canine distemper, and bordetella vaccines. All cats must be current on rabies and feline distemper vaccines. If necessary, an exam will be performed and vaccines will be given per the veterinarian's approval.	

If my pet requires emergency resuscitation (CPR) , please do the following; Initial A or B: A. _____ DO NOT perform CPR on my pet. I decline CPR for my pet. B. _____ Request for CPR. Having requested such emergency procedures, I agree to be held responsible for the additional services performed.
