

SPECIAL OPPORTUNITY FOR SOCIAL WORKERS

Do you work with families who care for elderly loved ones?

Discover how **care maps** can be a helpful new tool in working with the families you serve.

You're invited to learn about the concept of care maps – a visual representation of the people and services in a family's care network.

In this free two-hour session, you will learn how to create care maps with the families you serve and how the tool can be used to address their unique challenges of caregiving.

A token of appreciation will be provided to participants.

Wednesday, February 24
