

"Bio" Vacuum Tip

Eco-friendly single-use HVE Tip

BIOLine

Why use plastic
when it's this easy not to?

MADE FROM
SUGARCANE

This high performance vacuum tip makes for the perfect eco-friendly alternative for your practice!

Vented
&
Non-vented
Ends

"Bio" Vacuum Tip is a fossil-free, bio-based high volume aspiration tip made from **sugarcane**. Now you can have the same cost and convenience of a conventional tip while being environmentally responsible.

- S-shaped end for maximum accessibility and visibility
- Double-sided (vented/non-vented) for convenience
- Smooth edges for patient comfort
- Fits any HVE handpiece
- Length: 5.7" (145 mm)
- Single use, Bags of 100
