Never Retreat in Battle

What does it mean?

Never retreat in battle means do not give up and walk away from what challenges you because something seems hard or difficult to accomplish. Stay the course!

Example:

You are struggling with learning something at school. You keep trying but it seems so difficult to learn. Do you give up? Do you say "I quit"?

No Way! We don't quit!

You make a promise to yourself to start eating healthy. You work really hard to stay away from junk food, but one day you splurge and eat all kinds of candy and soda. Do you give up on your promise of a healthier you? Do you say "oh forget it...too late now. I blew it?"

No! You get back on track!

Homework:

Share your example of how you stayed the course when something challenged you!
Write it down, draw a picture or tell us a story!
