***Fast response time - Quality workmanship - Superior value***

Portland Precision Engineering has developed a solid reputation in the Southwest Victorian Engineering and Maintenance markets for consistently serving its clients with Responsiveness, Quality, Value and Innovation.

We are a full-service company with Design & Engineering, Manufacturing, Fabrication, Installation and Maintenance & Repair capabilities. We also offer Project Management and Business Consulting services.

The Portland Precision workforce consists of trade certified Fitter Machinists, Boilermakers, Mechanics, Apprentices and Trades Assistants. We also employ Crane Operators, Riggers, and Plant and Equipment Operators. Also on staff are a Design Engineer and Project Coordinator.

Portland Precision Engineering is critical to the regions industrial base providing preventive maintenance and urgent repairs to Machinery, Equipment and Mobile Plant across several sectors including Aluminium, Fertilizer, Timber/Fibre, Pharmaceutical and Food Production. We also service clients in the Road Transport, Construction and Wind Energy sectors.

Located just blocks away from the Port of Portland, Portland Precision Engineering (formerly Portland Fleet Maintenance) are also experts in Marine Maintenance with a rich history of ship repair of all kinds including full vessel overhauls.
