

## Booth Carpet

We highly recommend ordering carpet for your booth when the show floor is concrete. You may be spending many hours on your feet and want to be as comfortable as possible.

Why order booth carpet if the ballroom is carpeted?

- Ballroom carpet is patterned and multi colored which may clash with the booth drape or booth graphics.
- You want your booth to stand out from surrounding booths
- Match carpet coloring with your booth graphics or company logo.
- Add padding under carpet for more comfort underfeet for those long hours you will be spending in the booth space.
