

In 1986, Clare received her Bachelors of Nursing Science from Old Dominion University in Norfolk Virginia. She began her nursing career in a regional burn/trauma unit where she spent the next 10 yrs. It was there that Clare developed a love for working with pediatric patients.

Clare returned to Old Dominion University and in 1996 received her Masters of Science in Nursing and Pediatric Nurse Practitioner certification. Over the years Clare has had many wonderful opportunities working in a variety of settings.

For the past 5 years Clare had been living and working in Fort Worth Texas and although she enjoyed working with her colleagues and the families they served, she wanted to be closer to her grandchildren, so she moved here to Las Vegas.

Clare is very excited about joining Bright Futures Pediatrics and is looking forward to getting to know all of the families here. In addition to providing for the medical needs of her patients, she feels that it is also important to get to know her patients as individuals. Getting to know her patients and families will help to assess their individual needs and provide care. Clare thoroughly enjoyed raising a family, understands the complexities, and wants to support parents in raising happy, healthy children.
