CITY OF THE GOD(S)
## SACRED GEOMETRY & PATTERNS OF THE HEAVENLY TEMPLES

In this mural by Orozco, the depiction of Quetzalcoatl is as he is rising from the sea amongst 7 Serpents. The Bible depicts that the Beast will come out of the Sea as a 7-Headed Serpent or Red Dragon. The identity is explicit as that of Satan, Lucifer the 'Serpent of Old' who tried to usurp the House or Temple of the LORD GOD Creator YHWH. Lucifer knows the layout, geometry and angles of the Heavenly dwelling places in Heaven. Perhaps such pyramid configuration all over the world have been a blueprint of these sacred dimensions. Most, if not all ancient civilizations had/have a rendition of the 'Shining One'. He is the Feathered Serpent flying dragon that is said to represent a 'god' that came from the stars to help and teach Mankind. He must have been an extremely significant personage to have impacted every continent on Earth. He is attributed to teaching Humanity medicine, as he was a healer, a priest, a warrior, a shepherd. In the Mayan Dresden Codex, he is foretold that he is returning back to Earth to initiate and rule the 5th Age New Order.

From a Biblical point of view, this is a counterfeit attempt by the Fallen Angels in league with Lucifer as their 'king' and all those humans seeking after him that are attempting to establish a 'Zion' on Earth. This concept includes the Heavenly Temple of YHWH. The struggle of Lucifer is for dominion, worship and glory. As Lucifer is the 'mirrored' or opposite of Christ, his temples and cities have also 'mirrored' that of the original in Heaven, the very City of GOD. This Angelic Conflict will come to a head at the return of the True Christ, Jesus.

Despite being continents apart, there is a theory that the Americas were well connected with the ancient civilization of Sumer, Egypt and elsewhere. The mathematical relationship of each respective pyramid alignments are identical. Many believe that all the ancient civilizations actually had core origin in Atlantis. It is premised that after the Flood the subsequent destruction of Atlantis, the sacred religion, knowledge and spiritual connections were lost but to the few left within the priestly class that used it for their hegemony or domination of the mass illiterate and unsophisticated masses of humanity that repopulated the Earth thereafter. This was also possible and sanctioned by Lucifer. The carved out images below in rock show the Annunaki of Sumer with an important device. This same object is used in the Meso-American depiction of flight.
