Welcome Cattlemen,

Everyone at RV Bar Angus would like to extend a warm welcome to our buyers and all who attend our sale. We are excited with the cattle that are offered this year. They are some of the best we have ever offered for sale and will prove to be an asset to anyone's program.

The bulls are as even a set as you will find in any one herd. They are as stout; deep ribbed and heavy muscled as you will find in the Angus industry. They have been developed sensible to retain their soundness and fertility. They sport EPDs to prove their calving ease, gain ability and growth. We have added SimAngus bulls for your consideration this year which we are very excited about. They are just as competitive as their Angus brothers. This set of bulls will add pounds to your bottom line and dollars in your pocket.

This year we are offering a fancy set of females that have been produced from our program. These females carry all the desired genetic traits and will be excellent mothers. They all sell with the integrity of a program developed with strict standards both registered and commercial. The bred females are preg checked or with calf at side. These are females who can work for a living and bring home a big fat calf. If you are looking for some excellent individuals don't pass these cows up.

For the past several years we have been PAP testing all the bulls and have had a low trending herd. They summer at 7500-8500 ft. in very high desert conditions. These bulls and females will be ready to go to work. We will keep and feed all the bulls FREE of charge until the 1st of June 2019. We will deliver up to 150 miles with the purchase of 5 or more bulls.

We are looking forward to seeing you on sale day. If we can be of any help or you have any questions please contact us.

RV Bar Angus

MAP + DIRECTIONS

Directions to the Ranch:

Address: 7673 Hwy 40, Jensen, UT 84035

Coming from West (Vernal) - From the center of Vernal (Vernal Ave/Main St. & junction of 191 N) go east 11 miles on US Hwy 40. Turn will be about 1/4 mile past mile post 155 to the left. At the ranch sign, turn left (north) and follow the road to the barn about 3/4 of a mile off Hwy 40.

Coming from the East (Colorado) - From the Colorado/Utah state line drive west on Hwy 40, 20 miles and turn right at Ranch Sign. After coming into Jensen Valley you will cross Green River, past the visitor center, Sinclair gas station, church, and fire station all on the right (north side). From fire station go about a mile on top of hill, ranch is on the right, turn at sign and follow ranch road about 3/4 of a mile to barn. Turn is across from Smokey's Cafe and green dinosaur all on south side of Hwy 40.

SALE LOCATION: 7673 Hwy 40, Jensen, Utah
(See Map and Directions on inside front cover)

HERD HEALTH: All cattle will be accompanied by proper health certificates for immediate shipment. Calves have all received, at 1-2 days of age, an Inforce 3 intranasal shot.

TRUCKING: Truckers believed to be reliable will be available to assist you in shipping your purchases. Delivery available at cost.

TERMS AND CONDITIONS: Cattle will sell under the suggested Terms and Conditions of the American Angus Association (http://www.angus.org/Pub/suggested_sale_terms.pdf).

LIVESTOCK MORTALITY INSURANCE: To properly insure your investment, James F. Bessler, Inc., will be available to assist you with mortality insurance coverage. (815) 762-2641.

SUPPLEMENTAL INFORMATION: A supplemental sheet will be available sale day with complete and up-to-date calving information. All cattle have been pregnancy checked by a competent vet and are called safe with calf. In respect to AI dates, they are not unconditionally guaranteed other than the fact that they are pregnant. Announcements from auction block regarding the cattle selling in this sale take precedence over information listed in this sale book. Up-to-date genetic recessive status can be viewed online at www.angus.org.

FOOD AND REFRESHMENTS: A complimentary lunch will be served sale day at 11:30 a.m.

LIABILITY: All persons attending this sale do so at their own risk, legal or otherwise, for their safety or for the behavior of the animals. The owners, sale management firm, and sale staff assume no liability for property or any accidents that may occur.

All Bulls Will Be Semen, Trich, PAP Scored. Free Feeding On All Bulls Until June 1, 2019. Free Delivery On 5 or More Bulls Up to 150 Miles From Sale Site.

Real-time bidding available via the Internet for this sale. Live audio and live video will allow buyers to bid on animals just as if they were present at the sale. Buyers must create an account and request a buyer number. Instructions are available to walk you through the account set-up process. Web address: www.liveauctions.tv. E-mail address: margo@liveauctions.tv. Contact: Margo Paeltz-Schmerge at (937) 515-1194

Jeremy Haag
(816) 516-1309

Welcome to the 12th Annual RV Bar Angus Bull and Female Sale! It is always a pleasure to work with the Vincent family in representing this great set of cattle for your consideration. The herd sire prospects are high-performing cattle with outstanding performance that are summered at high elevation. All bulls will be semen, Trich and PAP tested and this information will be readily available for your use on sale day. The bulls at RV Bar Angus are backed by popular AI sires and the most prominent cow families in the breed; these bulls are most effective for both seed stock and commercial cattle operations.

You will also find a great set of registered Angus females in this year's sale along with a great set of commercial females. These cattle are from hardworking, time tested genetics and they are guaranteed in every way to please their new owners. If we can help in any way, please feel free to contact the American Angus Hall of Fame or RV Bar Angus. We look forward to seeing you on February 23, 2019, in Jensen, Utah.

Sincerely,

Tom Burke

Kurt Schaff

Jeremy Haag

Bred to calve February 14, 2019, to MGR TREASURE. Exposed to RV BAR Confidence R612. Examined Safe.

CONNELLY CONFIDENCE 0100

American Angus Association® Selection Tools

Expected Progeny Difference (EPD), is the prediction of how future progeny of each animal are expected to perform relative to the progeny of other animals listed in the database. EPDs are expressed in units of measure for the trait, plus or minus. Interim EPDs may appear on young animals when their performance has yet to be incorporated into the American Angus Association National Cattle Evaluation (NCE) procedures. This EPD will be preceded by an “I”, and may or may not include the animal’s own performance record for a particular trait, depending on its availability, appropriate contemporary grouping, or data edits needed for NCE.

Accuracy (ACC), is the reliability that can be placed on the EPD. An accuracy of close to 1.0 indicates higher reliability. Accuracy is impacted by the number of progeny and ancestral records included in the analysis.

GROWTH

Calving Ease Direct (CED), is expressed as a difference in percentage of unassisted births, with a higher value indicating greater calving ease in first-calf heifers. It predicts the average difference in ease with which an sire’s calves will be born when he is bred to first-calf heifers.

Birth Weight EPD (BW), expressed in pounds, is a predictor of a sire’s ability to transmit birth weight to his progeny compared to that of other sires.

Weaning Weight EPD (WW), expressed in pounds, is a predictor of a sire’s ability to transmit weaning growth to his progeny compared to that of other sires.

Yearling Weight EPD (YW), expressed in pounds, is a predictor of a sire’s ability to transmit yearling growth to his progeny compared to that of other sires.

Yearling Height EPD (YH), is a predictor of a sire’s ability to transmit yearling height, expressed in inches, compared to the that of other sires.

Scrotal Circumference EPD (SC), expressed in centimeters, is a predictor of the difference in transmitting ability for scrotal size compared to that of other sires.

CARCASS

The new carcass EPDs are calculated from an integrated analysis of the Angus Herd Improvement Records (AHIR®) carcass and ultrasound phenotypic databases. The genetic evaluation produces a single set of EPDs for carcass weight, marbling score, Ribeye area and fat thickness. The units of measure are in carcass trait format and analyzed on an age-constant basis.

Carcass Weight EPD (CW), expressed in pounds is a predictor of the differences in hot carcass weight of a sire’s progeny compared to progeny of other sires.

Marbling EPD (Marb), expressed as a fraction of the difference in USDA marbling score of a sire’s progeny compared to progeny of other sires.

Ribeye Area EPD (RE), expressed in square inches, is a predictor of the difference in ribeye area of a sire’s progeny compared to progeny of other sires.

Fat Thickness EPD (Fat), expressed in inches, is a predictor of the differences in external fat thickness at the 12th rib (as measured between the 12th and 13th ribs) of a sire’s progeny compared to progeny of other sires.

MATERNAL

Calving Ease Maternal (CEM), is expressed as a difference in percentage of unassisted births with a higher value indicating greater calving ease in first-calf daughters. It predicts the average ease with which a sire’s daughters will calve as first-calf heifers when compared to daughters of other sires.

Maternal Milk EPD (Milk), is a predictor of a sire’s genetic merit for milk and mothering ability as expressed in his daughters compared to daughters of other sires. In other words, it is that part of a calf’s weaning weight attributed to milk and mothering ability.

Mature Weight EPD (MW), expressed in pounds, is a predictor of the difference in mature weight of daughters of a sire compared to the daughters of other sires.

Mature Height EPD (MH), expressed in inches, is a predictor of the difference in mature height of a sire’s daughters compared to daughters of other sires.

Cow Energy Value (\$EN), expressed in dollars savings per cow per year, assesses differences in cow energy requirements as an expected dollar savings difference in daughters of sires. A larger value is more favorable when comparing two animals (more dollars saved on feed energy expenses). Components for computing the cow \$EN savings difference include lactation energy requirements and energy costs associated with differences in mature cow size.

\$VALUE INDEXES

\$Value indexes, are multi-trait selection indexes to assist beef producers by adding simplicity to genetic selection decisions. \$Values are reported in dollars per head, where a higher value is more favorable. The \$Value is an estimate of how future progeny of each sire are expected to perform, on average, compared to progeny of other sires in the database if the sires were randomly mated to cows and if calves were exposed to the same environment.

Weaned Calf Value (\$W), an index value expressed in dollars per head, is the expected average difference in future progeny performance for preweaning merit. \$W includes both revenue and cost adjustments associated with differences in birth weight, weaning direct growth, maternal milk, and mature cow size.

Feedlot Value (\$F), an index value expressed in dollars per head, is the expected average difference in future progeny performance for postweaning merit compared to progeny of other sires.

Grid Value (\$G), an index value expressed in dollars per head, is the expected average difference in future progeny performance for carcass grid merit compared to progeny of other sires.

Quality Grade (\$QG) represents the quality grade segment of the economic advantage found in \$G. \$QG is intended for the specialized user wanting to place more emphasis on improving quality grade. The carcass marbling (Marb) EPD, which is influenced by carcass marbling scores and ultrasound percent intramuscular fat (% IMF) measurements, contribute to \$QG.

Yield Grade (\$YG) \$YG represents the yield grade segment of the economic advantage found in \$G. \$YG is intended for the specialized user wanting to place more emphasis on red meat yield. It provides a multi-trait approach to encompass ribeye, fat thickness and weight into an economic value for red meat yield.

\$G combines both \$QG and \$YG, and may be the best carcass decision tool for focusing on quality and red meat yield simultaneously.

Beef Value (\$B), an index value expressed in dollars per head, is the expected average difference in future progeny performance for postweaning and carcass value compared to progeny of other sires.

VITAFERM[®]

PERFORMANCE THAT PAYS

VitaFerm[®] is a line of beef cattle nutrition supplements purposefully crafted to maximize energy and forage utilization at every stage. The products are formulated to ensure your herd is receiving optimal digestive health and nutrition at every stage of production resulting in performance that pays.

BioZyme[®] is the authorized partner of Superior Livestock Auction, offering the first-ever and 2018 exclusive value-added nutrition programs. For more information, visit www.vitaferm.com/superior.

RV BAR ANGUS

12TH ANNUAL PRODUCTION SALE

**PERFORMANCE TESTED
ANGUS BULLS AND FEMALES**

Saturday **FEBRUARY 23, 2019** 1:00 PM (MST)
At the Ranch, 7673 Hwy. 40, Jensen, Utah

All bulls will be Trich, PAP and
semen tested before the sale.

Info available sale day.

**FREE
WINTERING**
On all yearling
bulls until
June 1, 2019
