REPLACEMENT NOTICE

REPLACING YOUR LIFE INSURANCE POLICY?

Are you thinking about buying a new policy and discontinuing or changing an existing policy? If you are, your decision could be a good one – or a mistake. You will not know for sure unless you take a careful comparison of your existing policy and the proposed policy.

Make sure you understand the facts. Georgia law gives you the right to obtain a policy summary statement from your existing insurer at any time. Ask the company or agent that sold you your existing policy to give you information about it.

The reverse side contains a check list of some of the items you should consider in making your decision. **TAKE TIME TO READ IT.**

Do not let one agent or insurer prevent you from obtaining information from another agent or insurer which may be to your advantage.

Hear both sides before you decide. This way you can be sure you are making a decision that is in *your* best interest.

If you wish a policy summary statement from your existing insurer, or insurers, check this box.

We are required to notify your existing company that you may be replacing their policy.

ITEMS TO CONSIDER

1. If the policy coverages are basically similar, premiums for a new policy may be higher because rates increase as your age increases.
2. Cash values and dividends, if any, may grow slower under a new policy initially because of the initial costs of issuing a policy.
3. Your present insurance company may be able to make a change on terms which may be more favorable than if you replace existing insurance with new insurance.
4. If you borrow against an existing policy to pay premiums on a new policy, death benefits payable under your existing policy will be reduced by the amount of any unpaid loan, including unpaid interest.
5. Current interest rates are not guaranteed. Guaranteed interest rates are usually considerably lower than current rates. What rates are guaranteed?
6. Are premiums guaranteed or subject to change – up or down?
7. Participating policies pay dividends that may materially reduce the cost of insurance over the life of the contract. Dividends, however, are not guaranteed.
8. CAUTION, you are urged not to take action to terminate, assign, or alter your existing life insurance coverage until after you have been issued the new policy, examined it and have found it to be acceptable to you.

And

REMEMBER, you have ten (10) days following receipt of any individual life insurance policy to examine its contents. If you are not satisfied with it for *any* reason, you have the right to return it to the insurer at its home or branch office or to the agent through whom it was purchased, for a full refund of premium.

**Notice and Consent for
HIV-Related Testing
GEORGIA**

**Notice And Consent For FDA Approved Testing Which
May Include AIDS Virus (HIV) Antibody/Antigen Testing**

To determine your insurability, the Insurer designated above (“the Insurer”) has requested that you provide a sample of your blood, urine and/or other bodily fluid(s) for FDA approved testing and analysis. All tests will be performed by a licensed laboratory.

Tests may be performed to determine the presence of antibodies or antigens to the Human Immunodeficiency Virus (HIV), also known as the AIDS virus. The HIV antibody test is actually a series of tests done by a medically accepted procedure. The HIV antigen test directly identifies AIDS viral particles. These tests are extremely reliable. Other tests which may be performed include determinations of blood cholesterol and related lipids (fats) and screening for liver or kidney disorders, diabetes and immune disorders.

All test results will be treated confidentially. They will be reported by the laboratory to the insurer. When necessary for business reasons in connection with insurance you have or have applied for with the insurer, the insurer may disclose test results to others such as its affiliates, reinsurers, independent contractors, and its employees to whom disclosure is reasonably necessary in the ordinary course of business to carry out the purposes for which that disclosure is authorized or required. If the insurer is a member of MIB, Inc. (MIB), and if the test results for HIV antibodies/antigens are other than normal, the insurer will report to MIB, a generic code which signifies only a nonspecific test abnormality. The test results may also be disclosed to any member company that receives an application for health or life insurance on your life. If your HIV test is normal, no report will be made about it to MIB. Other test results may be reported to MIB in a more specific manner. The organizations described in this paragraph may maintain the test results in a file or data bank. There will be no other disclosure of test results or even that the tests have been done except as may be required or permitted by law or as authorized by you.

If your HIV test results are normal, no routine notification will be sent to you. If the HIV test results are other than normal, the Insurer will contact you. The Insurer may also contact you if there are other abnormal test results which, in the Insurer’s opinion, are significant. The Insurer may ask you for the name of a physician or other health care provider to whom you may authorize disclosure and with whom you may wish to discuss the results.

Positive HIV antibody/antigen test results do not mean that you have AIDS, but that you are at significantly increased risk of developing AIDS or AIDS-related conditions. Federal authorities say that persons who are HIV antibody/antigen positive should be considered infected with the AIDS virus and capable of infecting others.

Positive HIV antibody or antigen test results or other significant blood abnormalities will adversely affect your application for insurance. This means that your application may be declined, that an increased premium may be charged or that other policy changes may be necessary.

I have read and I understand this *Notice and Consent for HIV-Related Testing Which May Include AIDS Virus (HIV) Antibody/Antigen Testing*. I voluntarily consent to provide a sample of blood, urine and/or bodily fluid(s), the FDA approved testing of that sample and the disclosure of the test results as described above. I understand that this consent shall be valid for thirty (30) months following the date shown below.

I understand that I have the right to request and receive a copy of this authorization. A photocopy or transmitted facsimile of this form will be as valid as the original. I also have the right, upon written request, to an insurance institution (insurers), agent, or insurance support organization for access to recorded personal information and copy of same within thirty (30) business days from the date such request is received. I have the right to request, in writing, that any recorded personal information be corrected, amended, or deleted within thirty (30) business days from the date of receipt of my written request by an insurance institution, agent, or insurance support organization. If my request is not honored, I have the right to file a concise statement of the correct, relevant or fair information; and the reasons why I disagree with such refusal to correct, amend, or delete recorded personal information.

APPLICATION AMENDMENT

Life Insured:

The Application for Policy/Certificate ("Policy") No. _____ is amended as follows:

REQUEST TO BACKDATE POLICY TO "SAVE AGE"

I request that Transamerica Life Insurance Company ("Transamerica") date the life insurance Policy for which I am applying in the application so as to "save age." I understand that dating to "save age" means that each of the regular premium payments I make on the Policy will be lower in dollar amounts than if I did not date to "save age." **I also recognize that dating to save age means part of my first premium payment will be for a period of time during which insurance coverage will not be in effect.** The precise length of that period will depend on a number of factors, such as:

- (a) how far back in weeks or months the Policy needs to be dated in order to qualify for the younger insurance age,
- (b) how long it takes to process my application, which includes how quickly I respond to any requests for information from Transamerica, and
- (c) how quickly I am able to obtain delivery of the Policy and make the first premium payment, **which in most cases is when coverage commences.**

I further understand that I may have the option of making an initial estimated premium payment with my application and that doing so may eliminate or reduce the period of time for which I would be paying premiums without coverage.

I/We declare that I/we have, in an identical manner, completed and signed the copy of this amendment that is attached to and made part of the Policy issued by the Company.

It is agreed that this amendment shall be part of the application for the Policy.

APPLICATION AMENDMENT

Life Insured:

The Application for Policy/Certificate ("Policy") No. is amended as follows:

REQUEST TO BACKDATE POLICY TO "SAVE AGE"

I REQUEST THAT Transamerica Life Insurance Company ("Transamerica") backdate the life insurance Policy for which I am applying in the attached application so as to "save age".

I understand that backdating means that this application is amended to be "dated back" to the time specified in this amendment. I also understand that the Policy I am purchasing is the Policy then available for sale as of the date specified on this amendment.

I understand dating to "save age" means that each of the required Policy premiums I make on the Policy will be lower in dollar amounts than if I did not date to "save age". I realize that backdating means my required fixed premium will be due and payable from my "dated back to save age" date. I recognize and understand my monthly deductions taken from my premium payments will start from the same date and will be for a period of time during which life insurance will not be in effect. Likewise, the Surrender Charge period of my Policy will begin from that same date. Interest will not begin to accrue until either the Policy issue date or the premium payment is received in our Administrative Offices, whichever is later. The precise length of that period in which interest will not accrue depends on a number of factors such as:

- a) how far back in weeks or months the Policy needs to be dated in order to qualify for the applied for plan,
b) how long it takes to process my application, which includes how quickly I respond to any requests for information from Transamerica, and
c) how quickly I am able to obtain delivery of the Policy and make the first premium payment, which in most cases is when coverage begins.

I further understand that I may have the option of making an initial estimated premium payment with my application and that in so doing may eliminate or reduce the period of time for which I would be paying premiums without coverage.

I/We declare that I/we have, in an identical manner, completed and signed the copy of this amendment that is attached to and made part of the Policy issued by the Company.

It is agreed that this amendment shall be part of the application for the Policy.

Terminal Illness Accelerated Death Benefit Disclosure

You may request an accelerated death benefit when the Insured has been diagnosed with a Terminal Illness. A Terminal Illness is a medical condition, resulting from injury or disease which, as diagnosed by a Physician, has reduced life expectancy to not more than 12 months from the date of the Physician's certification. We must receive written proof of the Insured's Terminal Illness before we make an accelerated death benefit payment. We reserve the right to seek a second medical opinion or have the Insured examined at our expense by a Physician we choose.

We will pay an accelerated death benefit upon due proof that the Insured has a Terminal Illness, subject to the following conditions:

1. The Terminal Illness is first diagnosed on or after the later of the Date of Issue or Policy Date; and
2. The policy and endorsement are in force at the time of the accelerated death benefit request; and
3. The Face Amount of the policy at the time the accelerated death benefit request is received is at least \$25,000; and
4. At the time you request to exercise the accelerated death benefit, there must be at least two (2) years remaining before the Expiry Date of the policy;
5. We receive written proof of the Insured's Terminal Illness satisfactory to us, including a Physician's certification; and
6. We receive a consent form signed by all irrevocable beneficiaries (if any) and all assignees (if any) in a form acceptable to us.

An administrative fee will be deducted from the present value of each accelerated death benefit amount requested. The administrative charge for each accelerated death benefit request as of January 1, 2012 is \$350, but will be subject to future increases based on cumulative annual cost-of-living increases as measured by the Consumer Price Index for All Urban Consumers (CPI) since January 1, 2012. Cumulative annual cost of living increases will not exceed 5% per calendar year. In the event that the CPI is no longer published, a substantially similar index will be used.

The maximum death benefit you may accelerate is equal to the lesser of:

1. 100% of the Face Amount of the policy; or
2. \$500,000, including all other accelerated death benefits previously elected or currently under review under all policies, endorsements or riders issued by us or our affiliates on the life of the Insured.

The policy's Face Amount will be reduced by the amount of the death benefit accelerated. If less than the full Face Amount is accelerated, the premium payable after the accelerated death benefit is paid will also be reduced. The reduced premium will equal the appropriate premium rate applied to the reduced Face Amount plus any applicable policy fee. We will provide you with information showing the reduced Face Amount and new premium resulting from the accelerated death benefit payment.

RECEIPT OF ACCELERATED BENEFITS MAY BE TAXABLE AND YOU SHOULD CONSULT YOUR PERSONAL TAX ADVISOR.

This Guide Does Not Endorse Any Company or Policy.

Buying Life Insurance

When you buy life insurance, you want a policy which fits your need without costing too much. Your first step is to decide how much you need, how much you can afford to pay and the kind of policy you want. Then, find out what various companies charge for that kind of policy. You can find important differences in the cost of life insurance by using the life insurance cost indexes which are described in this guide. A good life insurance agent or company will be able and willing to help you with each of these shopping steps.

If you are going to make a good choice when you buy life insurance, you need to understand which kinds are available. If one kind does not seem to fit your needs, ask about the other kinds which are described in this Guide. If you need more information than is given here, you may want to check with a life insurance agent or company or books on life insurance in your public library.

Choosing the Amount

One way to decide how much life insurance you need is to figure how much cash and income your dependents would need if you were to die. You should think of life insurance as a source of cash needed for expenses of final illnesses, paying taxes, mortgages or other debts. It can also provide income for your family's living expenses, educational costs and other future expenses. Your new policy should come as close as you can afford to making up the difference between (1) what your dependents would have if you were to die now, and (2) what they would actually need.

Choosing the Right Kind

All life insurance policies agree to pay an amount of money if you die. But all policies are not the same. There are three basic kinds of life insurance.

1. Term Insurance
2. Whole Life Insurance
3. Endowment Insurance

Remember, no matter how fancy the policy title or sales presentation might appear, all life insurance policies contain one or more of the three basic kinds. If you are confused about a policy that sounds complicated, ask the agent or company if it combines more than one kind of life insurance.

The following is a brief description of the three basic kinds:

Term Insurance:

Term Insurance is death protection for a "term" of one or more years. Death benefits will be paid only if you die within that term of years. Term insurance generally provides the largest immediate death protection for your premium dollar.

Some term insurance policies are "renewable" for one or more additional terms even if your health has changed. Each time you renew the policy for a new term, premiums will be higher. You should check the premiums at older ages and the length of time the policy can be continued. Some term insurance policies are also "convertible." This means that before the end of the conversion period, you may trade the term policy for a whole life or endowment insurance policy even if you are not in good health. Premiums for the new policy will be higher than you have been paying for term insurance.

Whole Life Insurance:

Whole life insurance gives death protection for as long as you live. The most common type is called "straight life" or "ordinary life" insurance, for which you pay the same premiums for as long as you live. These premiums can be several times higher than you would pay initially for the same amount of term insurance. But they are smaller than the premiums you would eventually pay if you were to keep renewing a term insurance policy until your later years.

Some whole life policies let you pay premiums for a shorter period such as 20 years, or until age 65. Premiums for these policies are higher than for ordinary life insurance since the premium payments are squeezed into a shorter period.

Although you pay higher premiums, to begin with, for whole life insurance than for term insurance, whole life insurance policies develop "cash values" which you may have if you stop paying premiums. You can generally either take the cash, or use it to buy some continuing insurance protection. Technically speaking, these values are called "nonforfeiture benefits." This refers to benefits you do not lose (or "forfeit") when you stop paying premiums. The amount of these benefits depends on the kind of policy you have, its size, and how long you have owned it.

A policy with cash values may also be used as collateral for a loan. If you borrow from the life insurance company, the rate of interest is shown in your policy. Any money which you owe on a policy loan would be deducted from the benefits if you were to die, or from the cash value if you were to stop paying premiums.

Endowment Insurance:

An endowment insurance policy pays a sum or income to you — the policyholder — if you live to a certain age. If you were to die before then, the death benefit would be paid to your beneficiary. Premiums and cash values for endowment insurance are higher than the same amount of whole life insurance. Thus, endowment insurance gives you the least amount of death protection for your premium dollar.

Finding a Low Cost Policy

After you have decided which kind of life insurance fits your needs, look for a good buy. Your chances of finding a good buy are better if you use two types of index numbers that have been developed to aid in shopping for life insurance. One is called the "Surrender Cost Index" and the other is the "Net Payment Cost Index." It will be worth your time to try to understand how these indexes are used, but in any event, use them only for comparing the relative costs of similar policies. **LOOK FOR POLICIES WITH LOW COST INDEX NUMBERS.**

What is Cost?

"Cost" is the difference between what you pay and what you get back. If you pay a premium for life insurance and get nothing back, your cost for the death protection is the premium. If you pay a premium and get something back later on, such as a cash value, your cost is smaller than the premium.

The cost of some policies can also be reduced by dividends; these are called "participating" policies. Companies may tell you what their current dividends are, but the size of future dividends is unknown today and cannot be guaranteed. Dividends actually paid are set each year by the company.

Some policies do not pay dividends. These are called "guaranteed cost" or "non-participating" policies. Every feature of a guaranteed cost policy is fixed so that you know in advance what your future cost will be. The premiums and cash values of a participating policy are guaranteed, but the dividends are not.

Premiums for participating policies are typically higher than for guaranteed cost policies, but the cost to you may be higher or lower, depending on the dividends actually paid.

What Are Cost Indexes?

In order to compare the cost of policies, you need to look at:

1. Premiums
2. Cash Values
3. Dividends

Cost indexes use one or more of these factors to give you a convenient way to compare relative costs of similar policies. When you compare costs, an adjustment must be made to take into account that money is paid and received at different times. It is not enough to just add up the premiums you will pay and to subtract the cash values and dividends you expect to get back. These indexes take care of the arithmetic for you. Instead of having to add, subtract, multiply and divide many numbers yourself, you just compare the index numbers which you can get from life insurance agents and companies.

1. *Life Insurance Surrender Cost Index.* This index is useful if you consider the level of the cash values to be of primary importance to you. It helps you compare costs if at some future point in time, such as 10 or 20 years, you were to surrender the policy and take its cash value.

2. *Life Insurance Net Payment Cost Index.* This index is useful if your main concern is the benefits that are to be paid at your death and if the level of cash values is of secondary importance to you. It helps you compare costs at some future point in time, such as 10 or 20 years, if you continue paying premiums on your policy and do not take its cash value.

There is another number called the Equivalent Level Annual Dividend. It shows the part dividends play in determining the cost index of a participating policy. Adding a policy's Equivalent Level Annual Dividend to its cost index allows you to compare total costs of similar policies before deducting dividends. However, if you make any cost comparisons of a participating policy with a non-participating policy, remember that the total cost of the participating policy will be reduced by dividends, but the cost of the non-participating policy will not change.

How Do I Use Cost Indexes?

The most important thing to remember when using cost indexes is that a policy with a small index number is generally a better buy than a comparable policy with a larger index number. The following rules are also important:

(1) Cost comparisons should only be made between similar plans of life insurance. Similar plans are those which provide essentially the same basic benefits and require premium payments for approximately the same period of time. The closer policies are to being identical, the more reliable the cost comparison will be.

(2) Compare index numbers only for the kind of policy, for your age and for the amount you intend to buy. Since no one company offers the lowest cost for *all* types of insurance at *all* ages and for *all* amounts of insurance, it is important that you get the indexes for the actual policy, age and amount which you intend to buy. Just because a "Shopper's Guide" tells you that one company's policy is a good buy for a particular age and amount, you should not assume that all of that company's policies are equally good buys.

(3) Small differences in index numbers could be offset by other policy features, or differences in the quality of service you may expect from the company or its agent. Therefore, when you find small differences in cost indexes, your choice should be based on something other than cost.

(4) In any event, you will need other information on which to base your purchase decision. Be sure you can afford the premiums, and that you understand its cash values, dividends and death benefits. You should also make a judgment on how well the life insurance company or agent will provide service in the future, to you as a policyholder.

(5) These life insurance cost indexes apply to new policies and should not be used to determine whether you should drop a policy you have already owned for a while, in favor of a new one. If such a replacement is suggested, you should ask for information from the company which issued the old policy before you take action.

IMPORTANT THINGS TO REMEMBER — A SUMMARY

The first decision you must make when buying a life insurance policy is choosing a policy whose benefits and premiums most closely meet your needs and ability to pay. Next, find a policy which is also a relatively good buy.

If you compare Surrender Cost Indexes and Net Payment Cost Indexes of similar competing policies, your chances of finding a relatively good buy will be better than if you do not shop. **REMEMBER, LOOK FOR POLICIES WITH LOWER COST INDEX NUMBERS.** A good life insurance agent can help you to choose the amount of life insurance and kind of policy you want and will give you cost indexes so that you can make cost comparisons of similar policies.

Don't buy life insurance unless you intend to stick with it. A policy which is a good buy when held for 20 years can be very costly if you quit during the early years of the policy. If you surrender such a policy during the first few years, you may get little or nothing back and much of your premium may have been used for company expenses.

Read your new policy carefully, and ask the agent or company for an explanation of anything you do not understand. Whatever you decide now, it is important to review your life insurance program every few years to keep up with changes in your income and responsibilities.
