## Must Haves For Fall 2015

What's HOT for Fall? To achieve a tall and slimer look go with sophisticated High Waisted Pants. This classy look prevents the dreaded butt cleavage when you bend down, and helps keep a "belly roll" in check. Trench Coats aren't just for detectives and brooding French film noirs actors. This fall they're a wardrobe accessory to pair with about anything. The Skinny Scarf is a "GO" with layers that can make a blouse, coat or sweater give off a cool-chick-vibe. As does the Backpack. Designer backpacks are in all year, but great colors for fall are black, brown, nude and pastel. What is a Car Wash Skirt you ask? With regular fringe out, this skirt is a perfect fall look and shows a little bit of skin. It's edgy and a nice breather from regular fringe. If a trench is not your cup of tea, how about other coat versions like Puffer Cats? For cozy and fashionable, puffer coats are like wearing your fav cozy bed quilt! To go with any fashion you choose... one of the most important are Statement Earrings which add an extra "oomph" to any outfit. As the saying goes: Go Big Or Go Home. Luxe Sunglasses are another must. One of the most fashionable and high-tech shades on the market are Zoinx Polarized Sunglasses featuring what we need most... a patented clip integrated into the temples so the wearer can keep track of their location. I can't count the sunglasses I've lost! These sunglasses are designed for an active lifestyle, and include a convertible Zipper Pouch that holds car keys, a few bucks for a Starbucks coffee after a run and sealed waterproof emergency info card. The pouch can be clipped into a sport strap or worn on your wrist. Neons Mixed With Neutral Colors? It may be naughty, but if you feel the need to disobey the rule of "no bright colors in winter" why not transition summer bolds and neutrals by mixing them together. With black, brown or camel – spice things up dramatically with bright and bold. No fashion police will give you a ticket!
