DESCRIPTION: American Archery was an under-rated archery company. Their bows performed really well. This Young American model youth/starter bow is a good shooter. Birds Eye Maple riser. Comfortable grip. Bow has no delamination; no cracks; limbs are straight. Overlays and tips are in great condition. No drilled holes; no chips, dings or cracks. No stress lines or crazing. A few minor scratches and nicks here and there. Decals are in excellent condition. Overall, this is a really nice bow for its age. This bow was put to a stress test (held at full draw for 16 hours to make sure the old glues still held and no stress cracks developed. Then taken to the range and test shot. Comes with a flipper rest, and a used but good string.

Note: The dark spots on the left side of the grip do not look as pronounced in real life as they do in this picture.
