HONEYCOMB
SHADES

design simplified™

Thought you knew honeycomb? We're just getting started. New styles, luxurious texture and pattern options, plus a new smart app. Even honeybees are impressed.

Let's go window shopping.

HONEYCOMB SHADES

by Alta

Honeycomb Shades with Cordless Lift
and Vertical Application:
MARCELLA | Mocha Brownie H45-8701

Honeycomb Shades with Cordless Lift:
MELODIC | Ballet HX6-1053

WHAT THE PROS KNOW

Honeycomb shades are the go-to for design insiders. Why? Because they deliver efficiency when style also matters.

Honeycomb Shades with Simplicity Motorization:
OPULENCE | Soft Linen H39-629

WHY HONEYCOMB SHADES?

- Our insulating cell construction helps absorb both sound and extreme temperatures, making your nest more cozy and energy efficient.
- Opacities include sheer, semi-sheer, semi-opaque and blackout—so you control the light, not the other way around.
- The patented D-cell design keeps its crisp, full pleated structure and facing for the life of the shade.
- The lightweight fabric stacks tight for a more open view of the great outdoors.
- Unusual shaped window? We've got you covered.
- Motorization by remote or with our app makes your window coverings both smart and safe.

IDEAL FOR...

- Precise control of both light and privacy.
- Larger windows, with fabrics available up to 174" wide.
- Hassle-free operation with state-of-the-window hardware systems.
- Easy maintenance. The stain-and-wrinkle-resistant, easy-to-clean fabrics practically take care of themselves.
- Windows with prolonged exposure to the sun's rays.

Hybrid Pleat Shades with Cordless Lift
and Vertical Application:
semi-opaque | Sunbeam HPF-817

POSH PROPORTIONS

*Big ideas call for big statements.
Our super-sized 2" pleats are
orators of the first order.*

WHY 2" HYBRID PLEAT SHADES?

Bold spaces need a bold statement.

- Coordinate windows and doors with a single design.
- Two fabric layers in the cell design form an insulating pocket to keep things comfy.
- Rear cording and a white tabbed back offer a consistent, dimensional appearance to the neighbors.
- From a soft filter to blackout. You choose.

IDEAL FOR...

- Dressing up big, bold expanses of glass.
- Preserving the view. The unique cell construction allows for minimal stack when the shade is raised or traversed open.

Dimensions Shades with Cordless Lift:
TRIMBELLE | Hidden Lake DM84-7072

PROFILES IN LUXURY

*Ahead of the design curve?
Oh yeah. Introducing
Dimensions™, our latest and most
innovative honeycomb shade.*

WHY DIMENSIONS™?

Exclusively ours, the new Dimensions honeycomb shade with a unique cascading profile marries high style with high performance. Crafted in our new Linen Allure™ fabric, an added 'dimension' makes a dramatic filter of light, and places you firmly among the avant-garde.

IDEAL FOR...

- Luxurious looks. Our two distinctive textures and twelve rich neutral colors mean optimal options.
- West- or south-facing windows. More fabric at the window means less heat and UV ray transference. Aka no sweat.
- Making a statement. Clean, bold lines and cordless motorization options are at the leading edge of form and function.

introducing Linen Allure™

Our new Linen Allure fabric features elegant textures in a sophisticated neutral palette. Available in ¾" Single Cell, 2" Hybrid Pleat and Dimensions, Linen Allure offers a new approach to design coordination.

CELL STYLES: THE ESSENTIALS

Whatever your environment's challenge, we can meet it. Control light and temperature AND maintain your distinctive design style.

SELECT FROM 6 CELL STYLES

Single Cell 3/8" cell for smaller scale windows	Single Cell 3/4" cell for virtually any window size	Double Cell For superior insulation and added light control	Triple Cell For ultimate insulation and maximum light control	2" Hybrid Pleat For dramatic look, larger windows and sliding glass doors	Dimensions™ For a uniquely stylish look, suits a variety of window sizes
---	---	---	---	---	--

Alta Advantage | ENERGY EFFICIENCY

HOW TO CHOOSE?

Pleat size and cell layers offer more than good looks.

- Larger pleats (2" Hybrid or Dimensions™) provide drama and soft light filtering deep into your room.
- Single cell design is cost efficient and smart for a variety of climate regions.
- Double cell construction provides increased efficiency and light control.
- Triple cell styles can't be beat in extreme climates and super-sunny conditions.
- For even more energy efficiency, employ the inside mount option for premium performance.

thermostat control, with style

The insulating cell construction of honeycomb shades helps restrict the outside air, keeping your home warmer in the winter and cooler in summer. Just like a thermos. In fact, watch your energy bills drop and your environmental friendliness ramp up. Good for everyone and everything.

SHADES OF DISTINCTION

All our opacity options have impeccable reputations for perfectly filtered light and noteworthy good looks.

FABRIC OPACITY OPTIONS

Opacity refers to the degree of light the shade will filter (or block entirely).

Filtered light for an open, softened view, UV protection and glare reduction, when privacy is not a concern.

Like a sheer, but maintains moderate privacy.

The single cell allows in more light, while the triple cell reduces incoming light. All sizes offer privacy.

Living up to its name, blackout blocks all light (except at the sides of shades) for maximum room darkening and privacy.

HEADRAIL AND CONTROL SYSTEMS

STANDARD CORDLOCK

$\frac{3}{8}$ " Single Cell:

Hybrid Pleat Shades with Continuous Cord Loop:
CHAUMONT | Fall Meadow HP85-6082

Pro Tip
Choose a continuous cord loop for larger, heavier shades and keep costs in check.

CORDLESS OPTIONS

Cordless products are the #1 choice of both design pros and safety councils. As a leader in cordless innovation, Alta ensures style and peace of mind work hand-in-hand. We offer smart options that enhance the safety of window treatments to help protect your children and pets.

CORDLESS LIFT & LOCK™

We proudly carry the “Best for Kids” designation, certifying tough independent laboratory testing.

Press a button on the bottomrail handle to lift and lower the shade. Release the button to securely lock the shade into place. A child-safe option.

available with:

- Top-Down/Bottom-Up
- Two-on-One

Scan the QR code to watch the demonstration video.

CORDLESS LIFT

A light push or pull lifts or lowers the shade to any desired position. With no visible cords, cordless shades offer a clean look, and provide added child and pet safety.

available with:

- Top-Down/Bottom-Up
- Two-on-One

MOTORIZED OPTIONS

At Alta, we embrace innovation. We thrive on creating window coverings with style, ingenious engineering and state-of-the-art safety. Our motorization options provide both clean lines and ultimate convenience. Good for you, safe for your children, and a smart investment for your home.

Battery-operated motorized system lowers and raises shades with a remote, an app, or a wireless wall switch. Perfect for hard-to-reach windows or for everyday light and privacy control.

available with:

- Top-Down

Our app allows you to raise, lower and position your Remotelift™ 2.0 shades with your smart device. You can even program shades to operate on their own, day or night.

Battery-operated radio-frequency system, with sleek remote control, is an economical choice for average sized, lighter-weight shades.

PowerWand™ Motorized Shades are the perfect battery-powered option for the budget-savvy consumer. The wand and pendant operation lifts and lowers the shade with the touch of a button.

CORDED OPTIONS

The shade operates with a simple pull cord and can be locked in any position desired. Cleats help keep cords taut for added safety.

available with:

- Top-Down
- Top-Down/Bottom-Up
- Two-on-One

Raise oversized or heavy shades with ease and convenience. Cord loop remains a constant length. Cord tensioner eliminates dangling cords for enhanced child safety.

available with:

- Top-Down/Bottom-Up
- Two-on-One

EXPRESS YOURSELF

Honeycomb shades thrive on design challenges. Like what? Extra-wide windows. Different size windows. Sliding doors. Eccentric shapes. Skylights. Versatile honeycomb takes it all in stride.

Hybrid Pleat Shades with Continuous Cord Loop
and Vertical Application:
semi-opaque | Cocoa HPF-808

DESIGN OPTIONS

VERTICAL APPLICATION

Vertically-oriented shade opens from side-to-side, making it a perfect option for sliding glass doors, closets and room dividers. Stacks off the window in a small amount of space to maximize the outside view.

ARCHES, ANGLES, SPECIAL SHAPES

Versatile honeycomb is perfect for any shaped window. From fan-fold and operable arches, to hexagons, octagons, trapezoids and angles.

TWO-ON-ONE HEADRAIL

Two independently operating shades share the same headrail for a cleaner, more unified look. Ideal for wide-set windows and patio doors.

available with:

- Standard Cordlock
- Cordless Lift & Lock™
- Cordless Lift
- Continuous Cord Loop

SKYLIGHT

MOTORIZED SKYLIGHT

Covering most skylight openings, the standard skylight system includes side tracks and manually operates with a handle or optional extension pole. Motorized skylights provide the ultimate in convenience.

Scan the QR code to watch the demonstration video comparing skylight systems.

Honeycomb Shades with Cordless Lift & Lock/Motorized Skylight:
OPULENCE | Cloud Puff H29-628

Honeycomb Shades with Cordless Lift & Lock Top-Down/Bottom-Up:
PEACEFUL | Zephyr H96-2220

Alta Advantage | LIGHT & PRIVACY

Top-Down/Bottom-Up with Cordless Lift & Lock™ features operating cords discreetly located to the side, so nothing blocks your view.

Scan the QR code to watch the demonstration video.

LIGHT & PRIVACY CONTROL OPTIONS

Alta is the trailblazer for light and privacy control. Our high-performance designs offer maximum control of both sun and view thanks to a myriad of selections including top-down/bottom-up and two-fabric combination shades.

For all-in-one design solutions, our TriLight Shades® take the lead. Combine your honeycomb or 2" Hybrid Pleat with a sheer pleated for the ultimate in flexible control. Infinitely adjustable and always beautiful.

TOP-DOWN & TOP-DOWN/BOTTOM-UP

Operates from the top down and/or the bottom up for more light control and privacy options.

available with:

- Standard Cordlock
- Cordless Lift
- Continuous Cord Loop
- Cordless Lift & Lock
- Motorization (Top-Down only)
- Top-Down

TRILIGHT SHADES®

For the ultimate in light and privacy control, see TriLight Shades® on the following pages.

// TriLight Shades®

Hybrid Pleat TriLight Shades with Continuous Cord Loop:
blackout | Deep Slate HPR-812

SIMPLIFIED FROM TOP TO BOTTOM

It doesn't get easier than this. Two shades, one window covering, infinitely adjustable light and privacy control. And so much more...

// TriLight Shades®

Honeycomb TriLight Shades with Cordless Lift & Lock:
GLIMMER | Gold Shimmer HS3-955

WHY TRILIGHT SHADES?

Pair a sheer pleated shade with a honeycomb or 2" Hybrid Pleat, and get creative. Adjust the proportion to your desired amount of privacy or view.

- The sheer shade delicately diffuses the light, lessens outdoor glare and shields the room and furnishings from damaging UV rays.
- Adjusting honeycomb allows for light and privacy control versatility as well as insulation benefits.
- Peaceful sound modulation, room temperature control and energy-saving value.

Alta Advantage | VERSATILITY

IDEAL FOR...

- Filtering the bright morning sun or blocking intrusive evening streetlights.
- Providing privacy from neighboring homes too close for comfort.
- Office or media rooms where computer or TV screens need to shine.
- Buffering any unpleasant view (in the most pleasant way).

ONE WINDOW COVERING. INFINITE POSSIBILITIES.

*All the way up, all the way down or a combination of both with a single window covering.
Custom views by You.*

Scan the QR code to watch the demonstration video.

for a softened view, natural light, moderate privacy, UV protection and less glare.

for natural light, but also with UV protection, glare reduction and greater privacy.

for maximum light control, privacy and energy efficiency.

CONTROL OPTIONS

Press a button on the bottom rail handle to lift and lower the shade. Release the button to securely lock the shade into place. A child-safe option.

Child-safe with no visible cords, the shade raises and lowers with a simple push or pull on the handle.

The cord loop raises and lowers the shade and remains the same length no matter where the shade is positioned.
