DESCRIPTION: Great looking and performing semi-recurve. Maple riser. For an economical model bow, this one shoots very well. Has fairly wide green colored limbs. Limb varnish has some minor oxidation near the decal. Bow has no delamination; no cracks; limbs are straight. Tips are in great condition. No drilled holes; No chips, dings or cracks. No stress lines or crazing. A few minor scratches and nicks here and there. Decal is in very good shape. As a shorter semi-recurve, this bow tends to stack around 27" draw, so I would not recommend this bow for someone with a longer draw length. Overall, this is a really nice bow in excellent condition for its age.
