

Avalon Chemicals, Inc.

TECHNICAL DATA SHEET

Product Name	Avalub NA-06 1-Octylated-N-Phenyl-1-Naphthylamine
Acronym	NA 06
CAS No.	68259-36-9
Description	Ashless high purity product with low volatility. Lower sludging tendency than non-alkylated PANA. Excellent Solubility in mineral oil.
Usage and Dosage	Synthetic Lubricants: 2 – 3 % General and Industrial Lubricants: 0.5 – 2 %
Packaging	Available in 25 kg bags
Storage	Stored in a clean, cool and dry place

Avalon Chemicals, Inc.

SPECIFICATION SHEET

Product : **Avalub NA-06**
1-Octylated-N-Phenyl-1-Naphthylamine

CAS No. : 68259-36-9

Parameters	Specification
Appearance	Cream to pinkish brown solid powder
Melting Point	74 °C min
Nitrogen Content	4 – 4.5 %
Solubility	Ester, mineral oil
