Statewide Voluntary Preschool Program for Four-Year-Old Children

Fact Sheet

FUNDED ENROLLMENT

- 5,126 children in 2007-2008
- 9,676 children in 2008-2009
- 13,666 children in 2009-2010
- 19,799 children in 2010-2011
- 19,900 children in 2011-2012
- 21,629 children in 2012-2013
- 22,265 children in 2013-2014
- 22,695 children in 2014-2015
- 23,141 children in 2015-2016
- 23,518 children in 2016-2017
- 24,610 children in 2017-2018
- 25,215 children in 2018-2019*

*These numbers indicate only the children funded through the Statewide Voluntary Preschool Program. Amended code language for the SWVPP effective for FY2018 increased flexibility in the use of SWVPP funds, inclusive of paying the cost of attendance of a child older or younger than age 4 based on local school board decision. However, only 4-year-olds generate state funding. The number of 4-year-olds which were counted for state funding in 2018-2019 was 25,002. In addition to children funded through the SWVPP, children also attended with support from other funding sources.

PARTICIPATING SCHOOL DISTRICTS

In 2018-2019, the SWVPP was provided in:

- 323 districts out of 330 statewide
- 286 community partners

MORE OPPORTUNITIES FOR QUALITY LEARNING

lowa's Statewide Voluntary Preschool Program for Four-Year-Old Children (SWVPP) is an important part of the state's comprehensive early childhood effort, providing more opportunities for young children to access quality preschool and enter school ready to learn. The preschool programs are expected to serve four-year-old children with a range of abilities representing the social, linguistic, cultural, and economic diversity of families within the communities.

The SWVPP was established May 10, 2007, in House File 877.

In the Fall of 2018, approximately 26,710 lowa preschoolers in 323 school districts benefited from the SWVPP by providing at least 10 hours per week of developmentally appropriate instruction. More children than are reflected in the funded enrollment count have access to this preschool program through other funding sources.

The SWVPP along with other state and federally funded preschool programs and community partners in Iowa—such as Head Start, Early Childhood Special Education, Title I, and Shared Visions—make up Iowa's comprehensive preschool.

THE BENEFITS

A child's brain is 90% developed by age five (Early Childhood Education Degrees, 2013). Quality early childhood programming is the best way to prepare children for success in life.

Young children exposed to high-quality settings exhibit better language and math skills, better cognitive and social skills, and better relationships with classmates than do children in lower-quality settings (Barnett & Lamy, 2013).²

- A study of the Arkansas Better Chance (ABC) Program had meaningful longterm effects for children who participated including significant positive effects on children's receptive vocabulary and math through grade two and on literacy through grade three. Children who attended ABC pre-K were less likely to have been retained by the end of third grade than those who did not attend any Pre-K (Jung, Barnett, Hustedt & Francis, 2013).³
- Whatever you can do to ensure that more children receive a high quality, effective preschool education will pay substantial human and economic dividends far into the future (Bartik, 2014).⁴
- Economists have shown that high-quality early childhood programs bring impressive returns on investment to the public. Long-term studies have found the return on investment could be as high as \$17 for every dollar invested in early learning programs (Meloy et al, 2019). Program participants followed into adulthood benefit from increased earnings. Returns on investment to the public include reduced special education, welfare, and crime costs, and increased earnings and tax revenues from program participants later in life (Phillips et al, 2017).

FUNDING

- \$15 million in 2007-2008
- \$32 million* in 2008-2009
- \$45 million* in 2009-2010
- \$64 million* in 2010-2011
- \$58 million** in 2011-2012
- \$60 million** in 2012-2013
- \$66 million** in 2013-2014
- \$70 million** in 2014-2015
- \$73 million** in 2015-2016
- \$76 million** in 2016-2017
- \$78 million** in 2017-2018
- \$82 million** in 2018-2019
- * Both grant allocation and formula funding **Formula funding only

Allocation of state funds for the Preschool Program is intended to provide predictable, equitable, and sustainable funding.

State aid received for SWVPP children is equal to one-half of the state cost per pupil.

RANKINGS

According to the National Institute for Early Education Research (NIEER), in 2017—2018, Iowa's national rank was:

- 7th for four-year-old access to quality preschool programming.
- 37th for state spending on access to quality preschool.

WHAT THE FOUR-YEAR-OLD PRESCHOOL PROGRAM OFFERS

- A licensed teacher. An early childhood licensed teacher is responsible for designing and implementing effective learning environments using instructional strategies to enhance children's learning.
- A minimum of 10 hours per week of quality preschool instruction. Providers
 may provide more hours and childcare through other federal, state, or local
 programming. There may be a charge for these services if not funded through
 state or federal sources.
- Community collaboration. Programs must provide family involvement opportunities such as home visits, family nights, and conferences. The delivery of quality preschool services are provided by an appropriately licensed teacher.
 These services could be provided in the public school setting, or the district could collaborate with community-based early childhood programs, nonpublic, faith-based, non-profit, or for profit centers.
- High quality program standards. School districts and partners select and implement at least one of three approved program standards: the Iowa Quality
 Preschool Program Standards, the National Association for the Education of
 Young Children (NAEYC) Early Learning Program Accreditation Standards and
 Assessment Items, or the Head Start Program Performance Standards.
- High quality learning standards. Programs must have rigorous and relevant curriculum and assessments to enhance children's strengths, interests, and knowledge (based on the lowa Early Learning Standards); and alignment with K -12 standards and academic expectations.
- Appropriate adult-child ratio of 1 to 10 and a maximum group size of 20.

Early Indicators of Success

The Statewide Voluntary Preschool Program continues to meet high quality standards that support positive effects on Iowa's incoming kindergarteners. Participating school districts follow the Iowa Early Learning Standards. These standards identify the knowledge, skills, motivation, and attitudes needed by preschoolers that lead to success as students enter school and as adults. Additionally, participating programs must meet one of three program standards: Head Start Program Performance Standards, Iowa Quality Preschool Program Standards, or National Association for the Education of Young Children Early Learning Program Accreditation Standards and Assessment Items. Each set of program standards is indicative of high quality programming efforts.

Studies continue to show increased proficiencies in beginning reading skills among all children who attend the state's preschool program. All students in grades K-3 are required to be assessed three times per year with a universal literacy screening tool. The vast majority of districts use the Formative Assessment System for Teachers (FAST). The number of students proficient in early literacy skills upon kindergarten entry is increasing overall. In the Fall of 2014, 53 percent of kindergarteners were proficient on the FAST assessment. In the Fall of 2018, 61 percent of kindergarten children were proficient. Continuing efforts to support quality literacy instruction, such as intentionally embedding literacy into classroom curricula, routines, and activities are recommended.
