Job Title: Water Treatment Plant Operator II
Department: Public Works/Utilities/Water Treatment Plant
Supervisor: Water Plant Superintendent/ Assistant Superintendent
Hours of Work: Typically Monday thru Wednesday or Thursday thru Saturday (12:00 midnight – 12:00 noon) or (12:00 noon – 12:00 midnight) and every other Sunday (00:00 – 08:00); (40hrs/week – 80/hrs/pay period)
Hourly Pay: 10A- \$22.48 - \$29.10 (Class 1 Water Supply Certificate or higher)
10B- \$23.29 - \$29.85 (Class II Water Supply Certificate or higher)

Job Description Summary:

Nature and Scope:

The Water Treatment Plant is a division within the Utilities Department of the Public Works Group. The Water Plant Operator II is responsible for operating the Water Treatment Plant during an assigned shift and producing adequate quantities of clean, safe potable water for the community. This includes the constant application of principles and practices associated with both Ohio EPA Chemical and Microbiological Analyses Certification. This position will also assist with maintenance on an as needed basis or at the direction of the Water Treatment Plant Superintendent or Assistant Superintendent.

Job Requirements:

The Water Treatment Plant Operator II is responsible for collecting approximately 24 water samples per shift and analyzing each sample for at least six different parameters within the Wet Chemistry Laboratory. However, additional analysis must be performed if water quality conditions warrant. Full Chemical Analysis Certification and Full Microbiology Laboratory Certification as required by Ohio EPA must be maintained at all times.

In addition to the responsibilities of performing lab tests, the Water Treatment Plant Operator II will assist with routine maintenance and repair activities of the facility. Presently, Plant Operators are required to work six 12-hour days and one eight hour day in every two-week pay period.

Qualifications

- This position requires two (2) years of experience in work involving chemical analyses and operations of a Water Treatment Plant. A two (2) year degree in chemistry, biology or other water related fields is preferred.
- An Ohio Class II Water Supply License is preferred, but the ability to obtain a valid Ohio Class II Water Supply certificate within twenty four months after appointment will be considered.
- This position requires the incumbent's ability to obtain a "Valid" Full Wet Chemistry and Microbiology Laboratory Certification issued by the Ohio EPA within twelve (12) months of appointment. Certification must be maintained throughout employment within this position.
- A valid Driver's License and a good driving record are required. Both must be maintained throughout employment.
- Maintain residency as required by City policy.

To apply: Submit an application to the Receptionist in the Municipal Building. This position will be open until filled. To review the application, job description and benefit summary sheet, please visit the City's website at www.sidneyoh.com.
