# Testing Services

---

---

Our trained and licensed psychologists receive referrals from physicians, schools, lawyers, courts, and the general public to provide effective and confidential testing services. MASTERPEACE can assist you with the following tests:

**Achievement Testing:** Designed to measure a person's level of skill, accomplishment, or knowledge in a specific area.

**Bariatric Evaluations:** Preoperative psychological assessment of bariatric candidates.

**Personality Assessment:** Refers to the measuring through testing of one's current status regarding psychological constructs or concepts such as depression, hypochondria, criminality, masculinity/femininity, paranoia, anxiety, schizophrenia, mania, introversion/extroversion and others.

**Disability Psychological:** Disability psychological assessment involves a mental status exam and general psychological exam in order to rule out or identify any of a wide variety of possible psychological diagnoses (e.g., depression, organic disorder, anxiety, post-traumatic stress disorder).

**Intelligence Testing:** Frequently involves use of one of the age-appropriate Wechsler Scales of Intelligence, which examine verbal, visual-spatial, memory, visual-motor and related skills.

**Vocational Assessment:** Refers to testing regarding ones vocational interests. Related to vocational or career interests are the concepts of ability, achievement, work history, hobbies, physical skills, aptitude and competencies.
