HTV Emulator-Universal

Use a Pillow Speaker with low-cost consumer and hospitality TV's
No need for expensive Healthcare TV's

Part# - HTV Emulator-Universal
Patent Pending

Key Features

- Adds pillow speaker capability to virtually any TV. Including low-cost, and most popular consumer TV brands
- Specifically developed for healthcare facilities, clinics, long term care, assisted living, etc.
 - Compatible with all major pillow speakers including Curbell, Anacom-Medtek, and Crest.
 - Supports all major standard protocols including Legacy Zenith, Philips, Pro:Centric , and Samsung.
 - Automatic recognition of protocols without any setup required.
- Compatible with almost any consumer or hospitality TV
 - Best with TVs that have a headphone jack, or analog audio out
 - If not, the TVs digital audio output may be used, with an additional D2A device
- Mounts on the bottom or back of the TV
- No external IR Blaster required
- Simple one wire hookup to TV, just an audio connection
- Small package size, less than 2" x 1"
- Requires a free AC outlet for the included USB power supply
