

Date

Name

Use the Read–Draw–Write process to complete the problem at each station. Estimate before you solve the problem. Record your work for each station in the table.

| Station 1 | Station 2 |
|-----------|-----------|
|           |           |
|           |           |
|           |           |
|           |           |
|           |           |
|           |           |
|           |           |
|           |           |
|           |           |
|           |           |
|           |           |
|           |           |
|           |           |
|           |           |
|           |           |

| Station 3 | Station 4 |
|-----------|-----------|
|           |           |
|           |           |
|           |           |
|           |           |
|           |           |
|           |           |
|           |           |
|           |           |
|           |           |
|           |           |
|           |           |
|           |           |
|           |           |
|           |           |
|           |           |
|           |           |
|           |           |
|           |           |
|           |           |
|           |           |
