

# Roofing That Lasts!

## THE SMART CHOICE

Quality 40 Year Warranted . Great Customer Service

### PBR-PANEL Metal Roofing

### PBR Panel

PBR-Panel is a metal panel used for metal roofing and siding, primarily on commercial and industrial buildings. The larger 1-1/4" high ribs make it a great choice for low slope roofs. The taller ribs also allow it to span greater distances on open framing.

This is a great panel for slopes as low as 1:12. Available with a 40 year paint warranty, our PBR panel is long lasting, great looking metal roofing or siding panel.

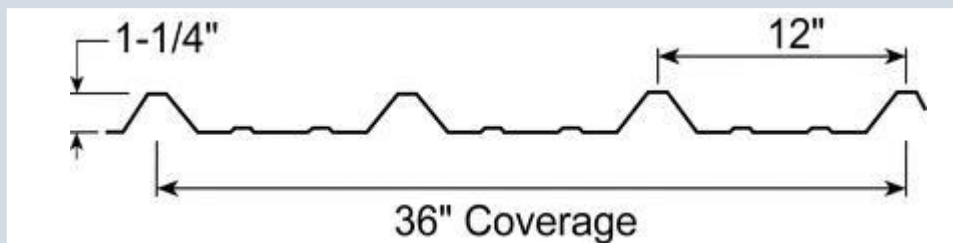

To make your job easier we custom cut these panels to the exact inch as they come out of the roll former to meet your specifications.

### Panel Specifications

- 36" panel coverage
- 1-1/4" trapezoidal ribs on 12" centers
