

Jazzy Ash Theme Song

Come aboard my riverboat cruise
Hurry up, so many things to do
Explore the world and when we're done
Come back, sing songs, and have some fun, oh
Come aboard the Queen Helene
And see some things you've never seen
I'm Jazzy Ash and this is true
I can't wait to share them with you!

Hop to school

It's sunny outside , sunny outside
The ground's too hot and my feet can't drop
I'm gonna hop, hop, hop to school today
Hop, hop, hop, hop to school today
Hop, hop, hop to school today
The ground's too hot and my feet can't drop

It's chilly outside, chilly outside
The ground's too cold, it'll freeze my toes
I'm gonna run, run, run to school today
Run, run, run, run to school today
Run, run, run to school today
The ground's too cold, it'll freeze my toes

It's rainy outside, rainy outside
The ground's too wet, I'll slip, I bet.
I'm gonna walk slow and splash in the puddles
Walk slow and splash in the puddles
Walk slow and splash in the puddles
The ground's too wet, I'll slip, I bet.

I'll meet you outside, meet you outside
The school's too far, let's take the car.
We're gonna *vroom vroom*, drive to school today
Vroom, vroom, vroom, drive to school today
Vroom, vroom, drive to school today
The school's too far, let's take the car
Come on everybody let's take the car

Leap Frog

Hey little boys, hey little girls
We're gonna jump all over this world
I'll teach you how to leap frog if you don't know
Jump over your buddy, then you let your buddy go

Now Leap! Aw, Leap! Come on girls, leap! I said leap! Leap Frog

Don't be shy it's easy to learn
Get it line 'til it your turn
Now here's your chance, reach for the sky
Start down low and spring up high

Won't cost you a penny
And it ain't too hard
Ain't no rules with winning card
All you gotta do is bend down low
1,2,3 and a-here we go!!! (1,2,3 and a-here we go)

Hey Little boys, hey little girls
We're gonna jump all over this world
Playing leap frog is *boucoup* fun
Hopping through the grass 'til the day is done

Now Leap! Aw, Leap! Come on boys, leap! Yeah, leap!

Woo hoo, hoo hoo hoo

Tight Rope Walker

Oh! Step right up folks, don't be shy
You will be amazed by a magical guy
Came along way, only here today, my oh my
Umbrella in one hand, chair in the other
Look now he's balancing a sister and a brother
He can do tricks, he can do a flip way up high

He's the very best part of the circus show
Steady now, steady now, steady now! GO!

CHORUS:

Tight rope walker
Is he going to fall down? I don't know
Tight rope walker
Steady now, steady now, steady now, GO!

Oh, don't let him have all the fun
Dancing on the high wire, close to the sun
You can do it too all you, all you have to do, is give it a try
You gotta be brave to walk on the line
Just a little practice, you'll do fine, then
You can do tricks, you can do a flip way up high

BRIDGE:

Oh, Don't just sit there, join the show
Steady now, steady now, steady now! GO!

CHORUS

Come on Mister, half way there

Please don't fall on your derriere
You're the very best part of the circus show
Steady now... steady now... steady now... go

Tight rope walker
Is he going to fall down, no, no, no
Tight rope walker
Steady now steady now steady now, let's go!

Hide and Seek

You know we should do?
Let's play a game of hide and seek
But I should probably warn you
That I cannot be beat
I'll hide behind the door
And stand forever still
You'll never hear me breathe
Oh no you never will
Never gonna find me
Never gonna find me

Wait!

Maybe I'll make pile of blankets
And hide myself in there
Or find a way to squeeze myself
Behind the rockin' chair

You call it "cat and mouse"
Or catch me if you can
No matter what the rhyme
You never find me, man

Never gonna find me
Never gonna find me

You'll never find me
You'll never find me here
You'll never find me in this game, go on...

Try to use detective skills
To see if you can spot me
You'll come SO CLOSE
Only to find that it is not me

I'm hanging upside down
Inside a willow tree
I'm wearing camouflage
With branches on my feet

Never gonna find me
Never gonna find me

Here I am
Ha-cha-cha!

You've been searching all around
As I'm creeping through the shadows
You hear a sound and turn around
Like a flash I am gone, so...

You might as well give up
And hand the win to me
Stand on the porch and yell:
"Olly, olly, oxen free!"

Never gonna find me
Never gonna find me.

You'll never find
You'll never find
You'll never find me
You'll never find me in this game
Hide and seek!

You'll never find me...

Tandem Bike

Come on sugar let's take a ride
Look at that sky- not a cloud in sight
Let's take a trip down the boulevard
All we really need is in my front yard
The tandem bike can't be beat
Hop along honey, got an extra seat
Let's ride ... together
Let's ride ... together

A tandem bike is built for two
The kind of bike I'll share with you
I'll ride seat one, you ride seat two
Until our ride is through
Just follow me, I'll take the lead
As we go at faster speeds
And work together, forward bound
Go round and round and round
And round and round and round
Let's ride ... together
Let's ride ... together
(3 times, each time faster)

END:

The tandem bike was built for two
The kind of bike I shared with you
You rode seat one, I rode seat two
And now our ride is through

Buddy

I had a friend, his name was Buddy
He was real close to me
And everyday we'd watch the trains
Come down from Tennessee
We'd wait all day to see the things
And people it would bring
And when that train come wizzin' by
I'd jump up and I'd sing. I'd sing:

Ooh, Buddy! Ooh, ooh Buddy!
Ooh, Buddy! Look at that train go by! (repeat)

Here come that train caboose in the back
Pickin' up speed blazin' down the track
Here come that train, clickety clack
Go, go, go no turning back!

Ooh, Buddy! Ooh, ooh Buddy!
Ooh, Buddy! Look at that train go by! (repeat)

Look at that, look at that, look at that, look at that
Look at that look at that, that train ...

Ooh, ooh! Look at that train go by

Look at that, look at that, look at that, look at that
Look at that look at that, that train ...

Ooh, ooh! Look at that train go by

Hoo-oo, hoo-oo Hoo-oo, hoo-oo (con.t)

Ice Skates

La dee dah loopy loop
A lovely day on my ice skates
La dee dah loopy loop
A lazy day on my ice skates
The weather is chilly I think its great

To take a skate in a figure eight
La dee dah loopy loop
A lovely day on my ice skates

La dee dah loopy loop
A lovely day on my ice skates
La dee dah loopy loop
A lazy day on my ice skates

Ice skating is really a piece of cake
So take a break on a frozen lake
La dee dah loopy loop
A lovely day on my ice skates

We don't do tricks, no fancy spins
So everyone wins when we skate with friends
La dee dah loopy loop
A lovely day on my ice skates

Bubbles

You've been playing all day
In the mud and the rain
Well you've had so much fun
But now you're all dirty
And you've got to get clean
Real quick, in a hurry
And so you see
And bath is what you need
It's got the very thing
To make you squeaky clean

And that's bubbles
All you really need is bubbles
Oh, you gotta have bubbles
Yeah, it's bubbles time

You gotta have bubbles
Lots and lots and lots of bubbles
All you really need is bubbles
Oh, yes indeed

Have, have you had a long day?
Things not going your way
It's funny what a few little bubbles can do
Bring sunshine to somebody feeling blue
Get yourself all wet
And I'm willing to bet
It's the best time yet
But you can forget

To add bubbles

Oh, you gotta have bubbles
Yes, you really need to have bubbles
All you gotta do is take a rub-a-dub-dub
And splash in the tub
With bubbles
Yeah, you gotta have bubbles
Mama's little baby needs bubbles
Yes, it's bubbles time

Firefly

Hey little firefly buzzin' in the night
Loneliness of darkness giving you a fright?
Send off you glow and burn it bright
And let the other fireflies see your light

Take courage little firefly; don't delay
You be the first one; lead the way
Now, look into darkness, squint your eyes
All the other fireflies lighting up the night skies

Had to stop what I was doing just to watch you glow
How do you do it? I don't know
And it never would've happened if it wasn't for you
Step out in courage and do what do you do

Hey little firefly buzzin' in the night
The loneliness of darkness was giving you a fright
Then you sent off you glow and burned it bright
And all other fireflies saw your light

How do you do it? I don't know
And it never would've happened if it wasn't for you
Step out in courage and do what do you do

Little firefly...
