To provide housing, donate items or for more information, contact Azita Eshagh at (408) 806-7225.

Can JFS SV offer resettlement services for arriving Ukrainians?
The federal government has not authorized resettlement agencies, such as JFS SV to provide Ukrainians with resettlement services given to persons whoa re technically “refugees.” Most Ukrainians entering the U.S. do not have this specific “refugee” legal status, so our resettlement options are limited.

If a Ukrainian family enters the U.S. with specific “refugee” status, JFS SV may be able to provide them with comprehensive resettlement assistance (housing, health care, school enrollment and other benefits).

We are able to provide Ukrainian newcomers with helpful information and assistance to set up their new residences.

What is sponsoring a Ukrainian and can I do it through JFS SV?
Sponsoring a Ukrainian means that an individual or group in the U.S. is committing to “receive, maintain, and support” the Ukrainian for two years.

If you are interested in sponsoring and would like more information on what sponsorship entails, please contact our partner agency HIAS regarding their Welcome Circles.
